**To build a sense of
belonging to a
common humanity
and help you to
become a
responsible and
active global citizen**

To develop awareness and appreciation of **contemporary challenges relevant to the discipline** facing individuals, organisations, communities and society, from a local, national and global perspective.

To develop **creative problem-solvers** through the application of knowledge to real-world problems.

CHANGE

Learning outcomes

Identify and evaluate historical and contemporary issues and their impact on today's global society.

- Climate change
- Automation and employment security
- Physical inactivity and sedentary behaviour
- Social inequalities
- ...

Apply appropriate collaborative working practices to manage conflict and support effective decision making.

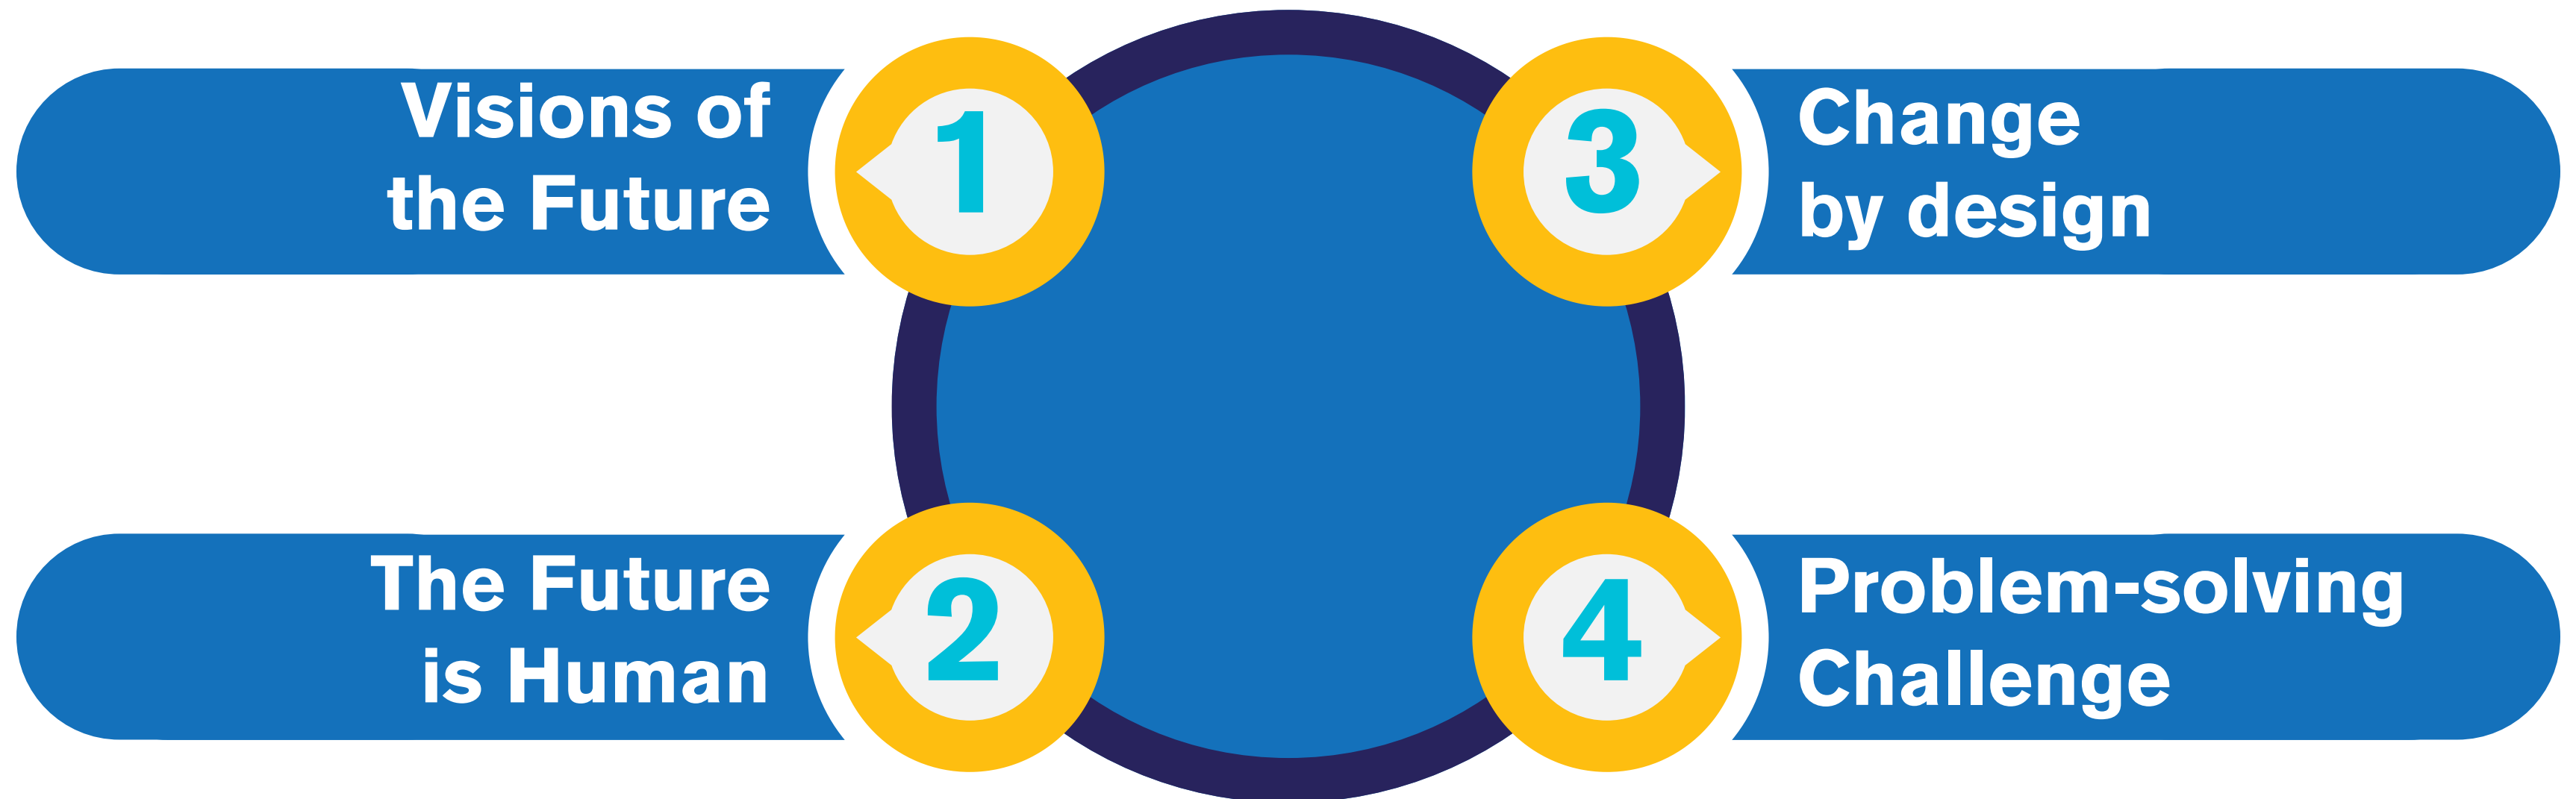

Implement 'Design Thinking' techniques to investigate problems in order to generate and evaluate solutions (to big or complex problems)
