

Q3

D) A 3D designer will need a; mouse, keyboard, 6+ usb3.0 ports, 2+ Hdmi ports, audio Jack, ethernet port.

All of this list is essential to any PC!!

E) A Suitable graphics Card would be a RTX 3070. I have chosen this as it is equipped with modern ray-tracing abilities and also support Dxt12 for the up to date graphics design. It also has 8GB of memory size which is optimum for a 3D animation developer.
