LEVEL 6 ASSESSMENT SPECIFICATION

Programme:	BA (Hons) Developing Leadership and Management		
Module:	Developing Strategic Capability		
Module code:	BMSW6011_Swan BMSW6011_Card	<i>Contribution to Overall Module Assessment (%)</i>	100%
Lecturer:	Scott James	Internal Verifier:	Christopher Wilkin
Assignment Title:	Strategic Evaluation of an Organisation	Word count (or equivalent):	4000 (+/-10%)
Submission deadline:	Friday 19th June 23.59 2026	Return date of provisional marks & written feedback:	Monday 13th July 23.59 2026
Submission method:	All written assessments, where practical and possible, must be submitted via Turnitin unless otherwise instructed by the Lecturer. (Please DO NOT put this assessment specification into Turnitin or it will match many similarities with other students' submissions.) Alternative submission method (if applicable): Late submission of the assessment will result in a late penalty mark: Work which is submitted up to 1 week late will be capped at 40% for the first attempt and will be awarded a mark of 0% for re-assessment. Late submission penalties may be lifted only if there is an approved extenuating circumstances claim. Work submitted more than 1 week late will be considered as a non-submission and will not be marked. The work may be considered as a submission for reassessment if offered by an Examining Board or if there is an approved extenuating circumstances claim.		
Academic honesty / referencing:	Academic honesty is required. In the main body of your submission you must give credit to authors on whose research and ideas your work is based. Append to your submission a reference list that indicates the books, articles, etc. that you have used, cited or quoted in order to complete this assessment.		

Module Learning Outcomes

(from module syllabus)

- Undertake strategic analysis using a variety of models and theories.
- Critically analyse the strategic position of organisations'
- Identify and discuss the strengths and weaknesses of organisations' current strategy.
- Develop a range of strategic options to ensure organisation sustainability.

TASK DESCRIPTION

Assessment Type: Individual Report

Word Count: 4,000 words (+/- 10%)

Organisations operate in increasingly complex and unstable environments. To remain competitive and sustainable, they must develop strong strategic capabilities to understand their environment, deploy resources effectively, and adapt over time.

This assignment requires you to analyse the strategic capability of a real organisation, applying the theories and frameworks covered in this module to evaluate its current position and future strategic direction.

Task

Produce a 4,000-word report based on one organisation of your choice.

- The organisation must be currently operating
- Your chosen organisation must be approved by your tutor

Report Structure and Requirements

Your report must be clearly structured and include the following sections:

1. Organisational Overview (*Approx. 600–700 words*)

Provide a brief overview of the organisation, including:

- Sector and core activities
- Key products/services
- Markets and geographic scope
- Major strategic developments over the last three years

2. External Environment and Stakeholders (*Approx. 900–1,000 words*)

Analyse the organisation's external environment using relevant frameworks, such as:

- PESTLE
- Porter's Five Forces
- Stakeholder analysis

Discuss key opportunities, threats, stakeholder expectations, and environmental pressures.

3. Internal Strategic Capability (*Approx. 900–1,000 words*)

Evaluate the organisation's internal resources and capabilities using appropriate tools, such as:

- Resource and capability analysis
- VRIO framework

Identify key strengths and weaknesses and assess their contribution to competitive advantage.

4. Strategy and Competitive Position (*Approx. 800–900 words*)

Critically assess the organisation's current strategy and market position, including:

- Strategic approach (e.g. cost leadership, differentiation)
- Position relative to competitors
- Evidence of strategic alignment or strategic drift

Evaluate the strengths, limitations, and risks of the current strategy.

5. Future Strategic Direction (*Approx. 700–800 words*)

Assess the organisation's readiness for future challenges by:

- Evaluating alignment between strategy, vision, mission, and values
- Identifying risks such as decline or organisational inertia
- Proposing two to three strategic options for the future

Strategic options should be justified and evaluated using appropriate criteria (e.g. suitability, acceptability, feasibility).

6. Conclusion (*Approx. 300–400 words*)

Summarise the key findings and identify the most appropriate strategic direction moving forward.

Presentation and Academic Requirements

A front cover page containing:

- Student name and student number
- Module title and module code
- Lecturer's name
- AI Acknowledgement
- Clear report formatting with headings and sub-headings

You must include in-text citations, along with a full Reference List of 40 references that conform to UWTSD's Harvard Referencing Guide (copy available on Moodle).

GUIDANCE FOR STUDENTS IN THE COMPLETION OF TASKS

NOTE: The guidance offered below is linked to the five generic assessment criteria overleaf.

1. Engagement with Literature Skills /15

Your work must be informed and supported by scholarly material that is *relevant* to and *focused* on the task(s) set. You should provide evidence that you have accessed an appropriate *range* of sources, which may be academic, governmental and industrial; these sources may include academic journal articles, textbooks, current news articles, organisational documents, and websites. You should consider the *credibility* of your sources; academic journals are normally highly credible sources while websites require careful consideration/selection and should be used sparingly. Any sources you use should be current and up-to-date, mostly published within the last five years or so, though seminal/important works in the field may be older. You must provide *evidence* of your research/own reading throughout your work, using a suitable referencing system, including in-text citations in the main body of your work and a reference list at the end of your work.

Guidance specific to this assessment: *The work should contain at least 40 academic references in support of your work from a variety of current, valid and reliable sources. A reference list should be provided using Harvard referencing conventions.*

2. Knowledge and Understanding Skills /20

At level 6, you should be able to demonstrate: sound knowledge and critical understanding of the well-established concepts and principles of the subject area and the way in which those principles have developed; knowledge of the main methods of enquiry in the discipline. *Knowledge* relates to the facts, information and skills you have acquired through your learning. You demonstrate your *understanding* by interpreting the meaning of the facts and information (knowledge). This means that you need to select and include in your work the concepts, techniques, models, theories, etc. appropriate to the task(s) set. You should be able to explain the theories, concepts, etc. meaningfully to show your understanding. Your mark/grade will also depend upon the *extent* to which you demonstrate your knowledge and understanding.

Guidance specific to this assessment: *You should demonstrate knowledge and understanding of the theories/models associated with Strategic Management. that influence the organisation in its i.e Planning, Implementation and its choice of Strategy, Strategic Capability..*

3. Cognitive and Intellectual Skills /25

You should be able to critically analyse information, and propose solutions to problems arising from that analysis, including the critical evaluation of the appropriateness of different approaches to solving problems. Your work must contain evidence of logical, analytical thinking, evaluation and synthesis. For example, to examine and break information down into parts, make inferences, compile, compare and contrast information. This means not just describing what! But also justifying: Why? How? When? Who? Where? At what cost? At all times, you must provide justification/evidence for your arguments and judgements. Evidence that you

have reflected upon the ideas of others within the subject area is crucial to you providing a reasoned and informed debate within your work. Furthermore, you should provide evidence that you are able to make sound judgements and convincing arguments using data and concepts, with an understanding of the limits of knowledge, and how this influences analyses and interpretations. Sound, valid conclusions are necessary and must be derived from the content of your work. Where relevant, alternative solutions and recommendations may be proposed.

Guidance specific to this assessment: *You should critically evaluate your sources, synthesis of information from your research and academic theories/ models and draw an appropriate conclusion/offer strategic options..*

4. Practical Skills /25

At level 6, you should be able to use/deploy a range of established techniques within the discipline, and apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context. You should be able to demonstrate how the subject-related concepts and ideas relate to real world situations and/or a particular context. How do they work in practice? You will deploy models, methods, techniques, and/or theories, in that context, to assess current situations, perhaps to formulate plans or solutions to solve problems, or to create artefacts, some of which may be creative. This is likely to involve, for instance, the use of real world artefacts, examples and cases, the application of a model within an organisation and/or benchmarking one theory or organisation against others based on stated criteria. You should show awareness of the limitations of concepts and theories when applied in particular contexts.

Guidance specific to this assessment: The report should include a critical evaluation of the success or failure of the strategy in operation at the organisation. This should be undertaken by the application of strategic models and theories to aid analysis and evaluation of the organisation.

5. Transferable Skills for Life and Professional Practice /15

Your work must provide evidence of the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making. This includes demonstrating: professional development to advance existing skills and acquire new competences that will enable you to assume significant responsibility within organisations; that you can initiate and complete tasks and procedures, whether individually and/or collaboratively; that you can use appropriate media to effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences; fluency of expression; clarity and effectiveness in presentation and organisation. Work should be coherent and well-structured in presentation and organisation.

Guidance specific to this assessment: *The report should be presented using a formal business report as demonstrated within the assignment guidance notes. The content should be of a professional standard with correct spelling, grammar and a logical flow to your discussion. The work needs to be supported with citations which should be referenced using the Harvard method.*

STUDENT FEEDBACK FORM

This section details the *extent* to which the assessment criteria are demonstrated by you, which in turn determines your mark. The marks available for each category of skill are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Level 6

In accordance with the Framework for Higher Education Qualifications, at the end of Level 6 students should have coherent and detailed knowledge and a systematic understanding of their subject area, at least some of which is informed by the latest research and/or advanced scholarship within the discipline. They will be able to accurately deploy established techniques of analysis and enquiry within a discipline, using their conceptual understanding to devise and sustain arguments and/or to solve problems. They should be aware of the uncertainty, ambiguity and limits of knowledge. They should be able to critically evaluate evidence, arguments, assumptions, abstract concepts and data (that may be incomplete), to make judgements, and to frame appropriate questions to achieve a solution - or identify a range of solutions. They will apply the methods and techniques that they have learned to review, consolidate, extend and apply their knowledge and understanding, and to initiate and carry out projects. They will have the ability to manage their own learning, and to make use of scholarly reviews and primary sources (for example, refereed research articles and/or original materials appropriate to the discipline). They will demonstrate the qualities and transferable skills necessary for employment requiring: the exercise of initiative and personal responsibility; decision-making in complex and unpredictable contexts; the learning ability needed to undertake appropriate further training of a professional or equivalent nature.
