Stay Safe Online

The internet is one of the best inventions, but we are not always safe on the internet.

PRACTICE SAFE BROWSING

A single careless click can expose your sensitive information. think before you click! Never share your password to anyone.

Keep your password safe, Use a secure and reliable password manager. Use a secure VPN connection.

A Virtual Private Network (VPN) will ensure your anonymity on the internet. Be careful of what you post. Remember: what you post on the internet will stay there forever.

Be careful of you download. Avoid downloading apps or software that look suspicious. It may result in malware.

STOP CHALLENGE PROTECT

People under 35 are more likely than older age groups to have been targeted in an impersonation scam and be swayed to provide personal or financial information, according to a new survey by UK Finance's . Take to Stop Fraud campaign.

STOP: Take a moment to stop and think before parting with your money or information could keep you safe.

CHALLENGE: Could it be fake? It's ok to reject, refuse or ignore any requests. Only criminals will try to rush or panic you.

PROTECT: Contact your bank immediately if you think you've fallen for a scam and report it to Action Fraud.
