If you do not like one particular page's record, simply select the video or the speaker icon that you recorded and delete it and re-record that page (ONLY). You do not need to record all pages.

1. Open your PowerPoint slide
2. Go to Slide Show Tab
3. Click Record Slide Show

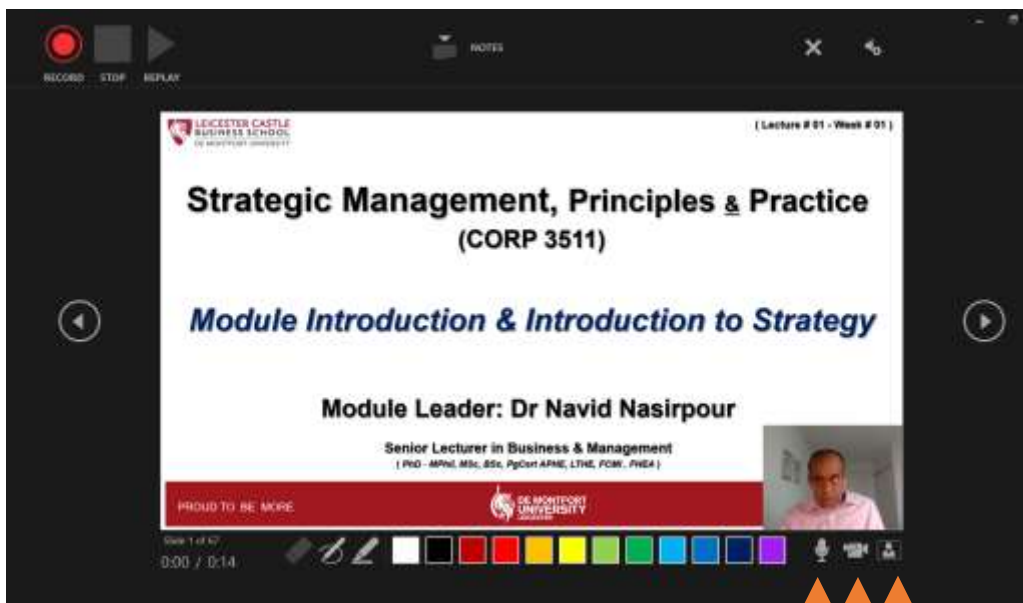

4. You have two options to start your video recording
 - A) Record from current slide
 - B) Record from beginning

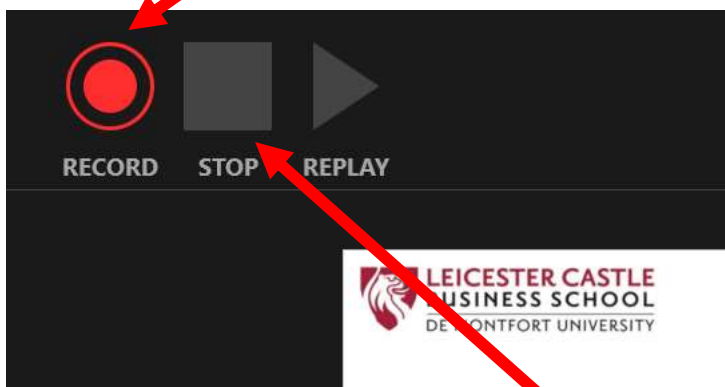

5. Select one of the above options you prefer

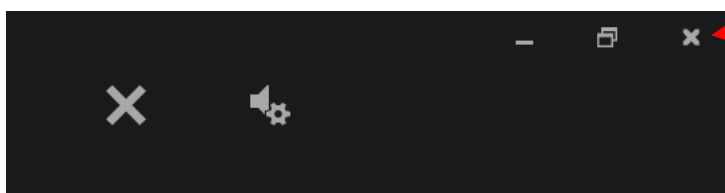

6. Select your camera and Microphone and camera-view

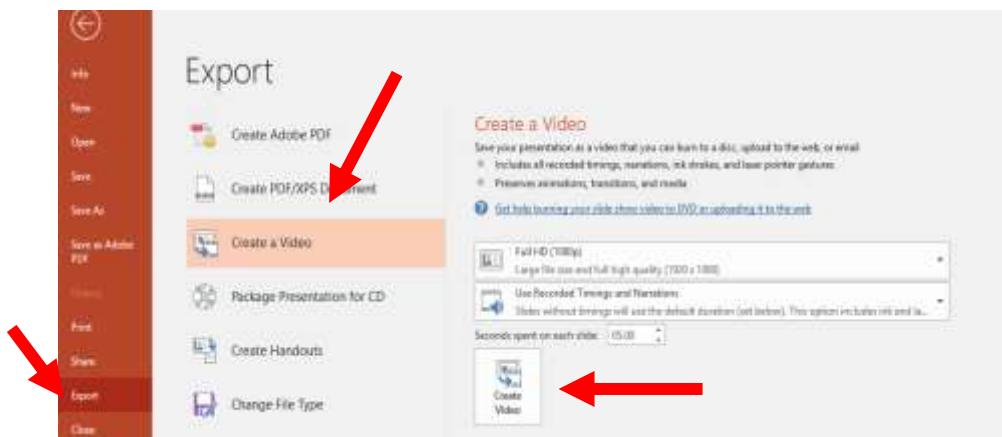

7. Click Record and start recording

8. Once your recording finished click Stop recording and then click this small X

9. To save your video record presentation; **Go to File**

10. Go to Export
11. Create a Video
12. Click Create Video
13. Name your video
14. This will take a few minutes (depends on the length of your record)
15. Now you can upload the video on your Stream
