

Digital safety

HOW TO KEEP YOUR DATA SAFE

01

SECURE INTERNET CONNECTION

Using a public wi-fi is not recommended especial when you go online in a public place and use a publicWi-Fi connection, you have no direct control over its security, which could leave you unprotected to cyber attacks. So, if you are connected a public Wi-Fi, avoid move out personal transactions that content sensitive data, such as online shopping or banking transactions.

02

IMPORTANCE OF BEWARE WHAT YOU POST AND WHERE

THINGS YOU SHOULD BE CAREFUL WITH WHEN POSTING ON SOCIAL MEDIA

- YOUR CHILDREN'S PICTURES
- FALSE NEWS
- PRIVATE CONVERSATIONS
- PICTURES SHOWING SOMETHING EMBARRASSING
- INSULTS TO OTHER PEOPLE
- PERSONAL INFORMATION.

03

STRONG PASSWORDS

Powerful passwords are essential because they help to prevent unauthorised access to personal accounts and private information

(TIPS OF A STRONG PASSWORDS)

- A mix of characters
- avoid pet's names or date of birth
- Variant of uppercase letters, lowercase letters and numbers.

04

MULTI-FACTOR AUTHENTICATION

Main Types of MFA Authentication Process

- Things only you know , such as PIN or PASSWORD.
- Things you have , such as a laptop or smartphone.
- Things you know as your first job or the name of your first school.
