Submit Paper 

4. In the box that opens, 1. Give the assignment a short title, 2. Drag and drop your assignment file into the box or browse for it on your device and add it. **N.B.** assignments should be saved and submitted as **Word** files when uploading to Turnitin. 3. Tick the box confirming the assignment is all your own work and 4. Click the 'Add submission' button. It may take several seconds for your assignment to upload depending on the size of the file.

The screenshot shows the 'Submit Paper' form in a Turnitin interface. The form has a light blue header with the title 'Submit Paper'. Below the header, there are three main sections: 'Submission Type', 'Submission Title', and 'File to Submit'. The 'Submission Type' section has a dropdown menu set to 'File Upload', which is circled in red and labeled with a red '1.'. The 'Submission Title' section has a text input field, also circled in red and labeled with a red '1.'. The 'File to Submit' section has a file upload area with a dashed border and a blue arrow pointing down, labeled with a red '2.'. Below the file upload area, there is a checkbox labeled 'By checking this box, I confirm that this submission is my own work and I accept all responsibility for any copyright infringement that may occur as a result of this submission.', which is circled in red and labeled with a red '3.'. At the bottom of the form, there is a blue button labeled 'Add Submission', which is circled in red and labeled with a red '4.'. A red arrow points from the 'Add Submission' button to a message at the bottom left that says 'There are required fields in this form marked !'.

5. Once the assignment has uploaded correctly, you'll see a confirmation box which you can close. You will also receive a confirmation email to your **student email account**. Keep this in case you need to refer to it at any point. That's all. Your assignment has been submitted.
