

Research Ethics

CORE PRINCIPLES

1

TRANSPARENCY - purpose and conduct of research is clearly explained to participants

2

CONFIDENTIALITY - must respect confidentiality otherwise may be a breach of data protection

3

VOLUNTARY - participants must not be coerced and can withdraw at anytime

4

DO NO HARM - should not put anyone in danger or risk of physical or emotional harm including yourself

5

IMPARTIALITY - disclose any connections to participants
