

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
General Comments		
Overall for this assignment you needed to read the brief more carefully to attain a higher mark. There were some sections of the practical task not completed and you needed to add the depth asked for to your statements and observations.	100	52
1. Engagement with Literature Skills		
In your report you have used a range of different sources which you have referenced but not included comments from within your report. You have discussed the concept (but not stated the difference between static and dynamic) but not gone into the depth required but you have looked at case studies to expand your description of the topic.	20	10
2. Knowledge and Understanding Skills		
Your observation on the practical part of the assessment were very brief and limited to simple statements. They also did not have any strength to the report. You made and presented your presentation and performed this to a reasonable standard.	15	8
3. Cognitive and Intellectual Skills		
You made no critical analysis in your observations on the technology.	15	
4. Practical Application Skills		
You installed both the domain and the child domain. You set up remote access and DHCP, but while you created user accounts this was not the ones requested or shared the drive requested. This also extended to not including the IIS server.	40	26
5. Transferable Skills for Life and Professional Practice		
Your report was of a good standard and contained all the relevant sections. It flowed well with referencing being used and no spelling errors and included all the relevant screenshots. Your presentation also was well produced.	10	8

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		52
