Topic1

Bakery-patisserie

- **Definition**

“**Baking**, process of cooking by dry heat, especially in some kind of oven. It is probably the oldest cooking method. Bakery products, which include bread , rolls, cookies , pies, pastries , and muffins, are usually prepared from flour or meal derived from some form of grain. Bread, already a common staple in prehistoric times, provides many nutrients in the human diet.”

Topic 2

- **History**
- “The earliest processing of cereal grains probably involved parching or dry roasting of collected grain seeds. Flavour, texture, and digestibility were later improved by cooking whole or broken grains with water, forming gruel or porridge. It was a short step to the baking of a layer of viscous gruel on a hot stone, producing primitive flat bread. More sophisticated versions of flat bread include the Mexican tortilla , made of processed corn, and the chapati of India, usually made of wheat .”

Topic 3

My passion ,my job

●This passion for bakery start 5-6 years ago when I gladly offred to prepare a celebration cake for a friend and was unexpected result,and after that I received more order for other people.

It's not easy to manage time between family and business ,but the key for all its manage the time ,know how to divide all the work and organise everything one day before.The night is my best friend ,during the day I bake the cake ,and at the night all off the rest .

Topic 4

time management

- The bakery always works against the clock ,each cake or tart must stay in the oven for a certain number of minutes ,but the orders must also be ready in time for each costumer.

My job ,bakery

●In future I wish I could have a commercial space in wich to create freely ,have a really business in bakery ,even if I know that it's not a easy job ,but when you work for yourself I think it's a great achievement .

Any Questions?

Thank You!
