Welcome to Nomis

Nomis is a service provided by [Office for National Statistics](#) (ONS), the UK's largest independent producer of official statistics. On this website, we publish statistics related to population, society and the labour market at national, regional and local levels. These include data from current and previous censuses.

[Information for first-time visitors](#)

Create a custom dataset

We group Census 2021 data together based on who or what the information is about, for example, people or households. We make population types from these groups or subsets of them. For example, people who are usually resident in England or Wales make up the population type usual residents. [Read about the measurements we used for Census 2021 data.](#)

Select population type

- ☐ All households
Either one usual resident living alone or a group of people who share cooking and living facilities, where that group includes at least one usual resident.
- ☐ All Household Reference Persons
A person who serves as a reference point, mainly based on economic activity, to characterise a whole household.
- ☐ All usual residents in communal establishments
A usual resident who lives in a place that provides managed full-time or part-time supervision of residential accommodation such as a university hall of residence, care home or prison.
- ☐ All usual residents in households
