

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
General Comments		
Overall you have missed some sections of the report which has reduced your marks. The quality of what you have is good but this is reduced by what is missing.	100	51
1. Engagement with Literature Skills		
This is where you were requested to show your research skills, but you have no bibliography or referencing for your document	20	
2. Knowledge and Understanding Skills		
You have made some reasonable statements in your observations but one section on testing is missing, this undermines your mark here.	12	7
3. Cognitive and Intellectual Skills		
This again requires more depth in your observations. You have some good statements but more breadth and depth is required.	15	7
4. Practical Application Skills		
You have created the network of 4 machines, set an IP address on each machine and used the PING command to check connection. You have though not had the setting up of the network cards or the naming of the machines. You also have very little written and this is not in the 3rd person.	40	32
5. Transferable Skills for Life and Professional Practice		
Your report was well laid out but not all sections started on a new page, there was no table of contents or bibliography to support your report. The language was good though and there were no spelling errors.	10	5

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		51
