Comments: Q1. You draw on relevant ideas and arguments, revealing a relatively good understanding of the topic. However, more by way of detail would be beneficial. For eg, you mention Norton's 'convergence claim' - could you say what this is & evaluate his ideas regarding different normative stances advocated similar policies & practices? Overall, though, your answer shows an awareness of the importance of an inclusive approach to environmental issues. Q2. Your answer evinces a good grasp of relevant concepts & of the technical terminology. You would do well to provide more by way of an evaluation of the different normative stances. Consider also incorporating a more explicit discussion of eco-centrism & evaluate its strengths/weaknesses
