Creating a Webfolio using PebblePad

Angela Masurier

Webfolio

A Webfolio is an evidence-based website, used to present stories about yourself or stories about your learning. They can contain any number of pages which can be added to, edited or deleted at any time. Pages may also contain links to websites and other assets within your ePortfolio.

Open PebblePad

Open moodle <http://moodle.smu.ac.uk/> ► Select the 'PebblePad' tab and Click on the PebblePad link to Open PebblePad ► Login to PebblePad.

Note: Everything you create in PebblePad is known as an asset.

Create a Webfolio

Select Create New ► **more...** ► **Webfolio**

In the pad that opens there are areas to add a **title**, (Assignment title). The tags drop down box contains the most popular tags select **Development** from the drop down list. Add a brief description for your Webfolio.

Click either the **number 2** button or the next arrow on the navigation bar to move to the next section. This section is where you can pick a template for the style of your Webfolio.

Click the drop down box and select a template. Once you have chosen a template you can click the coloured boxes below the small preview area to select a different template within the same theme. You can also create your own template by scrolling down to **create new template**.

Once you are happy with the **template** you can view it, by clicking on the magnifying glass at the bottom right of the pad.

Click the **number 3** button or the next arrow on the navigation bar to move to the next section.

This section allows you to define where you want to place the **navigation bar** on the pages of your Webfolio. You can place the navigation bar on the side or at the top of the Webfolio. You can also place the **sidebar left** of the Webfolio or to the **right**.

You can preview your selection by clicking the **magnifying glass** at the bottom right of the pad.

Click the **number 4** button or the next arrow on the navigation bar to move to the next section.

This section is where you can **add pages** and other items to your Webfolio

- To add a page, click in the box which says **[Enter Page Title Here]** and type in a title for your page
- Click the downward **chevrons** to add the new page to the Webfolio
- Repeat this process for as many pages as you wish to add
- You can re-position the pages, by clicking on the page title in the list and using the up and down arrows, on the left of the box
- You can edit the content of a page by clicking on the **edit page** icon at the bottom of the pad
- You can also double click on the page title for quick access to the [Webfolio editor](#) for you to add or edit your page content

Items

You can embed items as separate pages within the Webfolio:

- **blog**-You can embed a blog as a page in a Webfolio this will include all the postings to the blog. *N.B (This will be completed in future tutorials)*

Select **number 5** which then displays a number of options available to you for now simply click the **tick button** to save and close your asset.

Your Webfolio will be saved as an asset in PebblePad. To view your asset click on assets in the main PebblePad screen and a new pad will open displaying your assets.

This icon  represents a Webfolio asset.

To make changes to any asset select the asset by clicking on it and a new pad will open listing the options available to you.

Selecting **view this asset** will display your Webfolio. The following screenshots provide guidelines for the content of your Webfolio.

References

Reflective Journal

*This blog will contain a reflective account of five topics delivered on the APPD module.
(you could include use of appropriate, fully referenced, detailed examples)*

18 September 2011

Note Taking

Description (Keep this brief) Introduce the topic.

Interpretation - What was the most important/ interesting/ useful part of the topic?
How can it be explained with theory?

Outcome - What have I learned from this?
What does this mean for my future?

You should make use of personal examples to demonstrate the benefits gained, challenges encountered and lessons learned. Each blog must have a minimum word count of 250.
