Our Hot Topic (social issue currently being publicly debated)	
Covid – 19 vaccination	
Hypothesis / Argument (What will each of us will be arguing in our video?)	
I will be discussing what covid – 19 is, what a vaccine is, how long they take to make and who makes them. I will then be looking at the negatives to the vaccine and at the first two stages of The Oxford University trial period so far. Claire will be discussing the positives to the covid – 19 vaccine. Autumn will be discussing the overview of the covid – 19 vaccine.	
Content (What will I be using to illustrate my argument?)	
I will be looking at Oxford university trials into the covid -19 vaccine. I will be looking at a number of websites online to find information on the covid – 19 vaccine. Looking at articles online to find information on covid -19 vaccine.

Tasks (Other than taking part in the video, who will do what)

Due to the current situation with covid – 19 we have been unable to meet up in person to discuss the assignment, and with us all working different roles and times and having other issues and problems going on its been very difficult. We have however kept in touch as much as possible with each other in order to share our experiences with finding the research that we each needed to complete this assignment.

I will be researching online finding out the negatives if any for the covid – 19 vaccination.

My group and I will be completing this task as individually but also as a group.
