OUTDOOR PARTNERSHIP

PARTNERSHIP WORKING

The Outdoor Partnership have had a fantastic relationship with this course for 3 years now, and you will be part of that moving forward. The students have worked on a number of our projects including;

- Women and Girls Adventure Project
- Young Carers project
- The Adventure Learning Framework
- Adults Adventure Programme

This gives you a chance to work with 'customers', work on a project brief and work with real life projects. And for us there are many benefits -

A film from 2025/2026 by a second year student on our Adults Adventure Programme

ACTIVITY (DONT HATE ME!)

GROUP 1

Please discuss the barriers to filming outdoor activities like the ones mentioned (walking, bushcraft, map reading, outdoor yoga) and how you would overcome them?

You can write words, sentences or pictures!

GROUP 2

I've told you about the project, and what the films might be used for, please think of some questions you might want to ask the participants or providers about the project.

Additional projects to get involved with.....

In addition to the project Brett and I have chosen for you, we have a number of other projects in the Region (and further afield) that you are more than welcome to get involved with if one of these is more in your line of interest or inspires you.....
