Credaf byddai yn dull mwy addas ar gyfer yr astudiaeth ymchwil yma oherwydd.

Gwnaethoch ystyried

Rwy'n credu gall eich astudiaeth arwain i ymchwilio ymhellach ym maes / yn

Assessment 2 (13th January)

Assessment context

The most successful professionals in the disciplines of sport, health and education are those who continually evolve their knowledge, skill, and professional practice through the assimilation of research information, evidence and practice. The quality of this research is central to maintaining high level practice and the respect in which the academic field is held.

To improve quality and practice in the fields of sport, health, and education we need to first understand the importance of research and creativity and consider the strengths and limitations of research approaches.

Assessment task

Discuss the concepts creativity and research in the context of your subject area/ profession.

Ensure within the essay you address the following points:

- Define the key terms creativity and research
- Evaluate the strengths and limitations of different research paradigms
- Consider the role that creativity and research have played in the development of practice within your subject area/ profession and suggest future areas of development to further enhance practice.
- Reflect on the strengths and limitations of your own proposal (assessment 1) with use of your own knowledge (and feedback from your peers if complete).
