

LEVEL 5 ASSESSMENT SPECIFICATION

Student name:		Student ID number:	
Programme:	BSc Applied Computing		
Module:	Business and Web Management		
Module code:	ACCA5019	Contribution to Overall Module Assessment (%):	50%
Lecturer:	Suneth Fernando	Internal Verifier:	Dr Aliyu Sambo
Assignment Title:	Component 2 - Presentation of Plans and Strategies for an Online Presence for a Business	Word count (or equivalent):	15-minute presentation
Submission deadline:	In Class Presentation- 03-Dec-2026 Slides Due- 02-Dec-2026 (2 PM)	Return date of provisional marks & written feedback:	07-Jan-2027
Submission method:	All written assessments, where practical and possible, must be submitted via Turnitin unless otherwise instructed by the Lecturer. (Please DO NOT put this assessment specification into Turnitin or it will match many similarities with other students' submissions.) Alternative submission method (if applicable): Late submission of the assessment will result in a late penalty mark: Work which is submitted up to 1 week late will be capped at 40% for the first attempt and will be awarded a mark of 0% for re-assessment. Late submission penalties may be lifted only if there is an approved extenuating circumstances claim. Work submitted more than 1 week late will be considered as a non-submission and will not be marked. The work may be considered as a submission for reassessment if offered by an Examining Board or if there is an approved extenuating circumstances claim.		
Academic honesty / referencing:	Academic honesty is required. In the main body of your submission you must give credit to authors on whose research and ideas your work is based. Append to your submission a reference list that indicates the books, articles, etc. that you have used, cited or quoted in order to complete this assessment.		
Work over the word limit:	To support fairness and good academic writing, each assessment has a set word limit. It's important that you stay within this limit. The word limit helps ensure: - You write clearly and concisely. - All students complete the assessment on an equal basis.		

If You Go Over the Word Limit

If your work exceeds the word limit, the following penalties will normally apply. These deductions cannot take your mark below the pass mark for the module.

Amount Over Limit	Penalty Applied
Up to 10% over	No penalty
10%–25% over	5 mark deduction or reduction to the capped mark (whichever is the smaller penalty)
26%–50% over	10 mark deduction or reduction to the capped mark (whichever is the smaller penalty)
Over 50%	Mark capped at the pass mark

Examples (Undergraduate):

- A mark of **44%** would be reduced to the pass mark of **40%** if the work is 10–25% over.
- A mark of **49%** would be reduced by 5 marks to **44%**.
- A mark of **47%** at 25–50% over would be reduced to **40%**.
- A mark of **55%** at 25–50% over would be reduced by 10 marks to **45%**.

If You Are Under the Word Limit

If your work is significantly under the word limit, you may lose marks because your submission may not contain enough detail to meet the learning outcomes.

Feedback

If a word-limit penalty is applied, this will be stated clearly in your feedback, along with the reason.

**Module Learning Outcomes
(from module syllabus)**

- Demonstrate a sound understanding of the principal forms of business strategy and the environment, leadership & management, motivation and business information systems.
- Understand and apply essential concepts techniques and applications required to design and create a professional online presence for a business.

A word on the use of ChatGPT and similar generative AI systems

As you work on your assignments, you may be considering using generative AI for background research. It is acceptable to use these tools as a resource, but it is important to be aware that they often make mistakes and may not be completely accurate, particularly when asked for references. You must remember that as a student **you** are ultimately responsible for anything you submit, and **relying solely on generative AI could lead to your work getting a lower grade than you are capable of, or your work being investigated for academic malpractice.** Copying and pasting text directly from these tools without proper citation or attribution is not only unethical but could also result in serious consequences such as failing the assignment or even being expelled from the university.

It is therefore crucial to use generative AI only as a starting point and then verify and fact-check any information you obtain. You should also ensure that any work you submit reflects your own understanding and originality, and that you properly reference any sources you use.

You may use these tools, but you must use them ethically, and you should always strive for academic honesty and integrity.

Use of Generative AI in Assessment

(Lecturer to indicate Yes or Not against each element)

RESEARCH	For this assessment, you can use Generative AI to support you in research and data analysis.	Yes ☒ No ☐
STRUCTURE	For this assessment, you can use Generative AI to support you in structuring your submission, including creating a draft argument structure, identifying parts and headings, etc.	Yes ☒ No ☐
PROOFREADING	For this assessment, you can use Generative AI to check your own text/creation for grammatical and syntactical mistakes, including getting suggestions to rephrase your work.	Yes ☒ No ☐
WRITING	For this assessment, you can use Generative AI to create text for submission.	Yes ☐ No ☒
CREATIVE	For this assessment, you can use Generative AI to create creative materials, such as images.	Yes ☐ No ☒
PROGRAMING	For this assessment, you can use Generative AI to create and check code.	Yes ☐ No ☒
NONE	For this assessment, you are not allowed to use any type of Generative AI support. This includes research support, structure support, writing/proofreading support and creative support.	☐

TASK DESCRIPTION

BACKGROUND:

You are a junior IT & web designer working in an IT firm, and you've just been contacted to prepare an online presence for a fast-growing business – **Summit Fitness & Wellness Studio**. Your task is to produce the plans and strategies for developing a strong online presence in line with the business needs of **Summit Fitness & Wellness Studio**.

BUSINESS OVERVIEW:

Business Name: Summit Fitness & Wellness Studio

Tagline: "Elevate Your Health, Transform Your Lifestyle"

Products/Services: Summit Fitness & Wellness Studio is a premium fitness and wellness centre offering personal training, group fitness classes, yoga sessions, nutritional coaching, and wellness workshops. The studio combines modern fitness technology with personalised coaching to help clients achieve their health and lifestyle goals.

Target Audience: Summit Fitness & Wellness Studio caters to health-conscious professionals and adults aged 25–50 who value high-quality fitness experiences, personalised wellness plans, and flexible training options. The target demographic includes urban residents with active lifestyles and disposable income who are willing to invest in their physical and mental well-being.

TASK OVERVIEW:

Your mission is to craft and present an all-encompassing plan for an online presence for **Summit Fitness & Wellness Studio**. You may use a suitable presentation tool (e.g. PowerPoint, an online portfolio, etc.) to detail your strategies and present your ideas. This presentation should show your skill at incorporating business strategy with branding, marketing, security and other considerations.

REQUIREMENT:

The following are expected in the presentation:

1) Brand Identity:

- a. **Logo Creation:** Design a professional and visually engaging logo that represents the identity of **Summit Fitness & Wellness Studio**. The logo should reflect themes of strength, energy, wellness, motivation, and transformation.
- b. **Brand Story:** Craft a compelling brand story that explains the journey behind **Summit Fitness & Wellness Studio**. Describe the inspiration for starting the business, its mission to improve people's health and wellness, and the values it promotes. The story should connect with the target audience and create a strong emotional appeal.

2) Marketing Strategy:

The marketing strategy may include the following:

- **Social Media Strategy:** Suggest a social media strategy that leverages platforms such as Instagram, Tik Tok, Facebook, and YouTube.
- **Content Marketing Masterpiece:** Outline a plan on how content could be shared with the customers.
- **Search Engine Optimisation (SEO):** Outline the strategies that help **Summit Fitness & Wellness Studio** to be identified easily by the customers.

3) Cloud Computing:

- Explain how cloud computing can support **Summit Fitness & Wellness Studio** as a business.

4) Security Measures:

- Suggest strong security measures to safeguard **Summit Fitness & Wellness Studio's** website and its customers' data.

SUBMISSION REQUIREMENTS:

Upload your work to Moodle. Make sure the presentation includes distinct sections for the Introduction, Branding, Marketing Strategy, Cloud Computing, and Security Measures.

15-Minute Presentation:

You will use your PowerPoint presentation or online business portfolio to deliver a 15-minute presentation. Practice and prepare to make your presentation engaging and highlight the key elements of your website (according to the task description). Note, in your presentation, you are to demonstrate an understanding of the business needs, connecting the needs with the design strategies.

GUIDANCE FOR STUDENTS IN THE COMPLETION OF TASKS

NOTE: The guidance offered below is linked to the five generic assessment criteria overleaf.

1. Engagement with Literature Skills

Your work must be informed and supported by scholarly material that is *relevant* to and *focused* on the task(s) set. You should provide evidence that you have accessed an appropriate *range* of sources, which may be academic, governmental and industrial; these sources may include academic journal articles, textbooks, current news articles, organisational documents, and websites. You should consider the *credibility* of your sources; academic journals are normally highly credible sources while websites require careful consideration/selection and should be used sparingly. Any sources you use should be current and up-to-date, mostly published within the last five years or so, though seminal/important works in the field may be older. You must provide *evidence* of your research/own reading throughout your work, using a suitable referencing system, including in-text citations in the main body of your work and a reference list at the end of your work.

Guidance specific to this assessment: Marks will be awarded based on demonstration of thorough engagement with relevant literature related to branding, marketing, cloud computing, security and web design. Incorporate a wide range of peer-reviewed sources, industry reports, and case studies to support strategic decisions and justify your recommendations. Use IEEE referencing style.

2. Knowledge and Understanding Skills

At level 5, you should be able to demonstrate: sound knowledge and critical understanding of the well-established concepts and principles of the subject area and the way in which those principles have developed; knowledge of the main methods of enquiry in the discipline. *Knowledge* relates to the facts, information and skills you have acquired through your learning. You demonstrate your *understanding* by interpreting the meaning of the facts and information (knowledge). This means that you need to select and include in your work the concepts, techniques, models, theories, etc. appropriate to the task(s) set. You should be able to explain the theories, concepts, etc. meaningfully to show your understanding. Your mark/grade will also depend upon the *extent* to which you demonstrate your knowledge and understanding.

Guidance specific to this assessment: Marks will be awarded based on demonstration of comprehensive understanding of e-commerce website design principles, including user interface (UI), user experience (UX), responsive design, and mobile optimisation. Design choices are informed by theoretical knowledge and practical insights.

3. Cognitive and Intellectual Skills

You should be able to critically analyse information, and propose solutions to problems arising from that analysis, including the critical evaluation of the appropriateness of different approaches to solving problems. Your work must contain evidence of logical, analytical thinking, evaluation and synthesis. For example, to examine and break information down into parts, make inferences, compile, compare and contrast information. This means not just describing what! But also justifying: Why? How? When? Who? Where? At what cost? At all times, you must provide justification/evidence for your arguments and judgements. Evidence that you have reflected upon the ideas of others within the subject area is crucial to you providing a reasoned and informed debate within your work. Furthermore, you should provide evidence that you are able to make sound judgements and convincing arguments using data and concepts, with an understanding of the limits of knowledge, and how this influences analyses and interpretations. Sound, valid conclusions are necessary and must be derived from the content of your work. Where relevant, alternative solutions and recommendations may be proposed.

Guidance specific to this assessment: Marks will be awarded based on demonstration of critical thinking and creativity throughout the design process, offering innovative solutions to address the website issues. Design choices are well justified, showing a clear understanding of both problem domain and user needs.

4. Practical Skills

At level 5, you should be able to use/deploy a range of established techniques within the discipline, and apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context. You should be able to demonstrate how the subject-related concepts and ideas relate to real world situations and/or a particular context. How do they work in practice? You will deploy models, methods, techniques, and/or theories, in that context, to assess current situations, perhaps to formulate plans or solutions to solve problems, or to create artefacts, some of which may be creative. This is likely to involve, for instance, the use of real world artefacts, examples and cases, the application of a model within an organisation and/or benchmarking one theory or organisation against others based on stated criteria. You should show awareness of the limitations of concepts and theories when applied in particular contexts.

Guidance specific to this assessment: *The presentation should be polished, professional, and effectively showcase the branding, marketing strategy, cloud computing infrastructure and security measures. Also demonstrate strong presentation skills during the 15-minute presentation.*

5. Transferable Skills for Life and Professional Practice

Your work must provide evidence of the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making. This includes demonstrating: professional development to advance existing skills and acquire new competences that will enable you to assume significant responsibility within organisations; that you can initiate and complete tasks and procedures, whether individually and/or collaboratively; that you can use appropriate media to effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences; fluency of expression; clarity and effectiveness in presentation and organisation. Work should be coherent and well-structured in presentation and organisation.

Guidance specific to this assessment: *Marks will be awarded based on demonstration of strong communication and presentation skill in the online business portfolio. The presentation should be well-organised, coherent and professionally presented, with clear explanations of strategic decisions and recommendations.*

STUDENT FEEDBACK FORM

This section details the *extent* to which the assessment criteria are demonstrated by you, which in turn determines your mark. The marks available for each category of skill are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

GENERIC ASSESSMENT CRITERIA

Level 5

In accordance with the Framework for Higher Education Qualifications, at the end of Level 5 students will be expected to have developed sound knowledge and critical understanding of the well-established concepts and principles in their field of study, and of the way in which those principles have developed. They will have learned to apply those concepts and principles more widely outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context. They will have knowledge of the main methods of enquiry in the subject area, and ability to evaluate critically different approaches to problem solving. They will possess an understanding of the limits of their knowledge, and how this influences their analyses and interpretations. They will be able to use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis. They will be able to effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively. They will be able to undertake further training, develop existing skills and acquire new competences that will enable them to assume significant responsibility within organisations. They will have the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making.

Engagement with literature (including reading, referencing, academic conventions and academic honesty)	Little or no evidence of reading and/or reliance on inappropriate sources. Views and findings mostly unsupported and non-authoritative. Referencing conventions used incoherently or largely absent.	Poor engagement with essential reading. No evidence of wider reading. Reliance on inappropriate sources, and/or indiscriminate use of sources. Heavily reliant on information gained through class contact. Inconsistent and weak use of referencing.	Engagement with a limited range of mostly relevant and credible sources. Some omissions and minor errors. Referencing conventions evident though not always applied accurately or consistently.	Engagement with an appropriate range of literature, including sources retrieved independently. Some over-reliance on texts. Referencing may show minor inaccuracies or inconsistencies.	Engagement with a wide range of literature, including sources retrieved independently. Selection of relevant and credible sources. Very good use of referencing, with no/very few inaccuracies or inconsistencies.	Engagement with an extensive range of relevant and credible literature. Consistently accurate application of referencing.	Exceptional engagement with an extensive range of relevant and credible literature. High-level referencing skills consistently applied.

Cognitive and intellectual skills (Critical evaluation and analysis of concepts and principles; argument and judgement; the limits of their knowledge, and how this influences their analyses and interpretations.)	Wholly or almost wholly descriptive work. Little or no critical evaluation and analysis of concepts and principles. Failure to develop arguments, leading to illogical or invalid judgements. Unsubstantiated generalisations or opinion, made without use of any credible evidence.	Largely descriptive work, with superficial use of critical evaluation and analysis of concepts and principles. Weak development of arguments and judgements. Information accepted uncritically, uses generalised statements made with scant evidence and unsubstantiated opinions. Ideas sometimes illogical and contradictory.	Limited attempt at critical evaluation and analysis of concepts and principles, tending towards description. Some evidence to support arguments and judgements but these may be underdeveloped, with a little inconsistency / mis-interpretation or failure to fully recognise limits of knowledge.	Some critical evaluation and analysis of concepts and principles, though descriptive in parts. An emerging awareness the limits of their knowledge and ability to use evidence to support the argument though with some tendency to assert/state opinion rather than argue on the basis of reason and evidence. Mostly valid arguments and logical judgements.	Sound critical evaluation and analysis of concepts. Is selective in the range of evidence used and synthesises rather than describes. Ability to devise arguments that show awareness of different stances, and use evidence convincingly, to support appropriate and valid judgements.	Excellent critical evaluation and analysis of concepts and principles leading to logical, evidence-based, reasoned arguments and judgements. Explicit recognition of other stances and a strong awareness of the limits of their knowledge. A capacity for independent thought and ability to 'see beyond the question', suggesting some grasp of the broader field and wider concepts.	Outstanding critical evaluation and analysis of concepts and principles. Uses evidence exceptionally well to connect ideas, and support highly logical and persuasive, arguments and judgements. Evidence of independent thought and ability to 'see beyond the question', suggesting a clear grasp of the broader field and wider concepts. Perceptive recognition of

Practical skills (Apply underlying concepts and principles more widely outside the context in which they were first studied; use a range of established techniques; propose solutions to problems arising from analysis.)	Limited or no use of established methods, materials, tools and/or techniques. Little or no appreciation of the context of the application. Limited understanding of the application of theory to practice or making appropriate links between the two. Very weak problem-solving skills outside the context in which they were first studied.	Rudimentary application of established methods, materials, tools and/or techniques but without consideration and competence. Flawed appreciation of the context of the application. Weak understanding of the application of theory to practice, with only occasional evidence of making appropriate links between the two. Weak problem-solving skills outside the context in which they were first studied.	An adequate awareness and mostly appropriate application of established methods, materials, tools and/or techniques. Basic appreciation of the context of the application. Theoretical knowledge and understanding applied in practice, but not always making logical links between the two. Can identify problems and propose basic solutions outside the context in which they were first studied.	A good and appropriate application of established methods, materials, tools and/or techniques.
