**From Publisher:**

OK.... Here is a MASSIVE opportunity for you. I've been quite selective who I've sent this to.

I'm sure you've all heard of SELECTED <https://selectedbase.com/>

Our current track on there is Harrison's 'Lucid Dreams' which is currently streaming 140,000 per day (over 3 Million in 4 weeks). We also have a Tom Enzy track coming out soon. I managed to convince them to give my writers a go at an ALREADY signed instrumental. One that they already love but just looking for a topline/feature. This will be a follow up to his first release.

Please check out the references on their playlist below.

This is HUGELY IMPORTANT TO ME. My strike rate with them is pretty good.

Take your time and send any efforts back to me labelled like this.

Effemar/Title/Writers & Splits.

Let's smash this guys.

**From Brief Owner:**

The playback is from a swiss producer called Effemar. He will have his first release on our label on November 27<sup>th</sup>.

Here's a link to a playback he sent us and we all love the vibe:
