

Digital Safety

Be aware of
SCAMMERS

S **A** **F** **E**

Speak to somebody if you need help

Ask an adult before going online

Friends are real people we know

Enjoy play, have fun and stay safe

e-safety adviser

Stay safe online

Quality First Education Trust

Be aware of SCAMMERS at all times. Protect your **PASSWORD**. NEVER SHARE YOUR DATA WITH ANYONE. Don't meet with STRANGERS from INTERNET. Always ask an ADULT advise! Pay attention to software updates!! Use ANTIVIRUS always!!

Protect your DATA!!

S **M** **A** **R** **T**

Stay Safe
Don't give out your personal information to people / places you don't know.

Don't Meet Up
Meeting someone you have only been in touch with online can be dangerous. Always check with an adult you trust.

Accepting Files
Accepting emails, files, pictures or texts from people you don't know can cause problems.

Reliable?
Check information before you believe it. Is the person or website telling the truth?

Tell Someone
Tell an adult if someone or something makes you feel worried or uncomfortable.

Follow these SMART tips to keep yourself safe online!

SMART tips based on resources from www.thinkuknow.co.uk

KEEPING YOUR PASSWORDS SAFE

Create Complex Password Hints

Try a **sentence/acronym** that only applies to you and is random.

Example: My first job was at 1567 third street and I was a computer engineer = mfjw@1567tsaiwace

Change Passwords When Necessary

Rather than changing every 90 days, change your password less frequently, and change the **entire password**.

Use a Password Manager

These **store** complex, strong passwords for all of your accounts and save you the time it takes to type a long password.

Example: Dashlane, LastPass, Sticky Password

Install Antivirus Software

This helps **protect** the computer from unauthorized code or software that creates a threat to the system.

Example: Panda Security Antivirus
