Tric a Chlic

**Ffoneg synthetig sy'n
sail i ddarllen a sillafu**

*Based on a synthetic phonics
approach to learning to read and spell*

- '**Tric a Chlic**' is a unique and systematic phonics programme to introduce Welsh successfully to schools
- It is suitable for children who have already been introduced to a synthetic phonic programme in English (e.g. '*Read Write Inc*', '*Jolly Phonics*')
- It allows for easy progression by building on pupil's knowledge, revising sounds and introducing new Welsh sounds orally, through movement and visual clues
- Children can then blend and segment words, short sentences and read graded reading books using the same strategies as they do in English

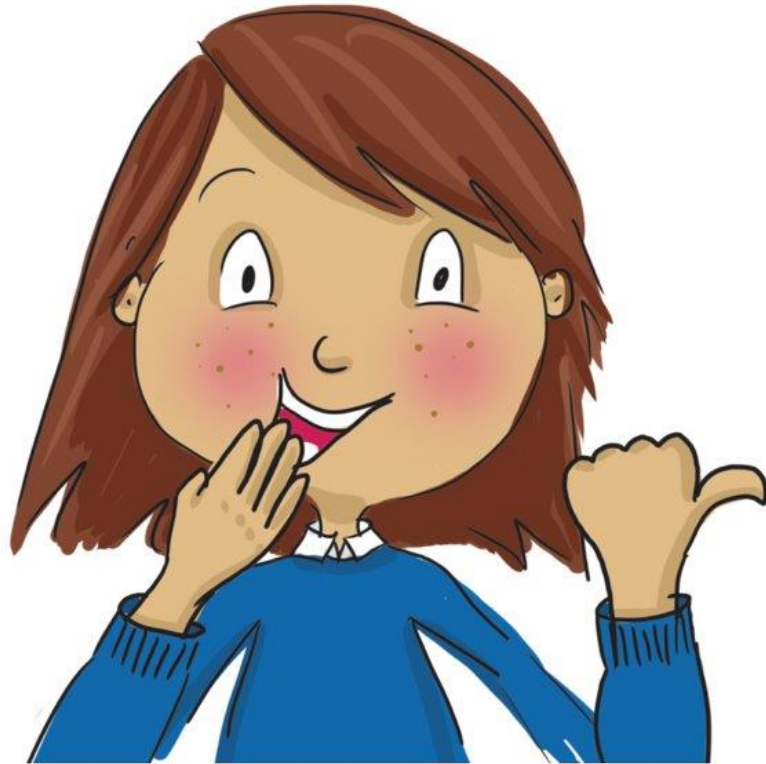

The programme is built of 3 elements:

1. **phoneme – grapheme correspondence**
2. **combine (build) sounds to read**
3. **segment (cut) sounds to spell**

- All books (and resources) have been translated and questions supplied with possible answers for the benefit of both teachers and support staff
- There are games, fun activities and songs for children to embed their phonic knowledge through play
- There are also '**Tric a Chlic**' apps which reinforces the teaching in a creative way

Website: **tricachlic.cymru**

- Find out more about the content of the programme and how to offer support to learners and browse through the many ideas and resources available
- Also includes information and support for parents and carers to support children at home

<https://tricachlic.cymru/english-medium-schools/?lang=en>

A large number of schools in Wales implement the programme with their learners and see the benefit and successes of the programme.
