Personal profile

Dedicated qualified nurse who is passionate about caring for individuals. Will go above and beyond to provide highest standards of care for a wide variety of patients and their specific needs. Optimistic personality and with a lot of enthusiasm for the healthcare industry, achieved 8 years of experience within nursing care settings and hospitals. Currently focused on earning a Master's degree in Business and Management. Aiming to leverage my experience and knowledge to effectively fill the manager position at your nursing home.

Key strengths

- Acquired nursing skills used accordingly and promotes moral, ethical behaviour
- Calm, patient and flexible personality
- Interpersonal skills- emotionally intelligent, able to relate with patients, to listen to them, to show empathy and compassion
- Teamwork- can take the role of leader in coordinating care teams and to liaise/collaborate with other professionals such as GP's, physiotherapists etc
- Observational skills- capable of identifying and understanding signs of improvement or deterioration in patients' condition and knowledge about what actions need to be taken
- Problem solving- excellent ability to identify problems within the workplace; highly motivated to fix them by analysing and making the right decisions

Professional experience

Easily adaptable general nurse, employed to cover permanent or temporary roles, within a fixed workplace or ad-hoc with a nursing agency, played an important role in caring for substantial numbers of patients, a maximum of 66 during one shift. Experienced work within nursing homes, care centres and hospitals. Fantastic professional skills acquired whilst looking after various patients with backgrounds of

general illnesses and also proven excellent skills nursing patients that suffer from different mental health conditions. Experienced with Peg tubes care, Stoma Care, Tracheostoma care, Dementia, Cerebral Palsy, Challenging behaviours, Palliative and end of life care.
