Module Name	NCSE-ACCA4024
Marked By	Nitheesh Murugan Kaliyamurthy

Engagement with Literature Skills	15
Feedback	Marks
Could have referred to more sources and materials. The security breaches could have been referred to academic credible literatures. Key concepts (possible security breaches, threats, vulnerabilities, attacks, .meds) discussed. The report is well associated with the scenario given. Literatures referred to the work are not adequate. More academic credible literatures could have been referred to the work. Most of the literatures referred to in this work are generic internet source.	10.5

Knowledge and Understanding Skills	15
Feedback	Mark
Security breaches were discussed well. Could have added more evidences to the breaches. Eg: Disgruntled Employees, Permission levels could have linked/ referred to industry/academic credible literatures and past attacks in similar organisations. That could have added more value to the work. Could have added more details on the threats, attacks, and vulnerabilities. Also tried to explain the possible security breaches stated like Disgruntled Employees, Permission levels, etc matching them to possible threats, attacks, etc. That could have shown a continuity in the report	12.3

Cognitive and Intellectual Skills	20
Feedback	Mark
The guidelines for staff and customers could have been explained in a more detailed way. More adequate details could have been discussed to enhance the security of the given infrastructure (scenario). Could have referred to more industry specific policies and its guidelines. The organisation of ideas and evidence is good. Could have improved by stating more evidence for certain descriptions.	14

Practical Application Skills	40
Feedback	Mark
Packet Tracer done Other than Packet Tracer Course completion, no other practical tasks were done.	10

Transferable Skills for Life and Professional Practice	10
Feedback	Mark
Flow of ideas are ok. Could have added abbreviations/ definitions of technical terms used in the report.	6
Overall Mark	53
