

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
While you have included a good amount of literature and sources in task 1, task 2 has only been completed by approximately 10%. Inclusion of a bibliography is very good and you have used citation throughout task 1 and some of task 2.	20	9
2. Knowledge and Understanding Skills		
Good explanation of data security frameworks supported by good literature and cited. However you are missing task 2 where you could have discussed how these would be implemented and the challenges faced.	10	6
3. Cognitive and Intellectual Skills		
While you have concisely described areas of Data Security, you haven't included a discussion on how they are implemented in industry and also some critical analysis on potentially issues with the implementation of the areas discussed.	25	11
4. Practical Application Skills		
There is minimum evidence of real world examples used within the submission. Include more practical examples to support your discussions which will enable a discussion on critical analysis.	25	5
5. Transferable Skills for Life and Professional Practice		
Your document is well presented and constant throughout. However you are missing a significant proportion of task 2. Inclusion of diagrams, tables and images can also significantly improve the structure of a document. The overall general structure of the document is good with title page, TOC, page numbering and bibliography sections. Remember to include a conclusion as requested in the rubric.	20	9

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		40
	Up to four weeks late
