Career Plan

My career plan is mostly leading on an uncertain future, wanting to become a successful entrepreneur, such as solver problem one. The most important is to be a successful one because that simply mean I will reach my point for my purpose. In order to achieve this idea, i have to achieve a lot of objectives that will lead me to the purpose point.

My career will assume to find out, to pipe by the scope the problems from our society. That can be communication problems, business ones, market problems, humanity problems, so on...and then to find a unique solution in order to fix them and that unique solution will be represented by my business, by my company, by my brand that I will create. In this way I can make money, I can have success and I can help people, so from this idea I get all my satisfaction.

But until then I have to learn a lot of things, to develop a lot of abilities and skills which belong of business area, marketing and leadership. This way it is not short one and not easy at all. There are few people who wants become leaders because being a leader in a team or widely scale, imply to get a lot of responsibilities upon you that not just can affect you, but other people around you and people you work with as well.

Entrepreneurship is not about selfishness. It is about doing something for yourself in the same time you do for people around you. Should be a win-win and enjoyable game.

Personal Development Plan

Goal	Reason for need	How	How long	Obstacle	Skills
Entrepreneur	Personal satisfaction Money Freedom	Getting all abilities that I need from courses, experience and mistakes	Undetermined	Less financial resources	Adaptability Fast learning Open mind IT Skills
