

Note that as part of the MATLAB campus license, all students have free access to online training courses. Please see below for details of how to access these. There are a huge number of courses available in many different subjects, so please take a look you may be surprised by what is available.

Dr A. Marotin

We are pleased to confirm that your MathWorks online training agreement for University of Wales Trinity Saint David has been renewed.

All users who are associated to your campus Total Academic Headcount (TAH) license are **automatically enrolled** in all available online training courses. To access training, users should:

1. Visit <http://matlabacademy.mathworks.com>
2. Log in using their MathWorks account

Once logged in, you will be able to see a full list of available courses - including those available in Japanese and Spanish - as well as our TAH-exclusive courses.

Users who are not associated to the TAH license can visit [this page](#) to link their MathWorks account to the TAH license.

Please note: The updated end date of your agreement is 30-Nov-2019. Users will have until that date to access and complete course content, and will require a MathWorks Account associated with your TAH license.

Questions?
