STUDENT FEEDBACK FORM

This section details the *extent* to which the assessment criteria are demonstrated by you, which in turn determines your mark. The marks available for each category of skill are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Generic Assessment Criteria	Marks available	Marks awarded
1. Engagement with Literature Skills		
Very few references which you expect in a short piece of writing, however, it would have been good to have cited books or journals as well as web sites. The sources are good and they are cross referenced in the text.	20	13
2. Knowledge and Understanding Skills		
The emphasis on social responsibility in architecture is well argued and referenced. It is clear that you understand some of the difficulties that confront society and the possibility that architects can intervene to address these difficulties given the right set of circumstances.	15	10
3. Cognitive and Intellectual Skills		
There is a good analysis of the homeless issue and reference to some interesting architectural responses. You depart from your focus on housing to discuss some of your more personal motivations for studying architecture – which you expressed well. Then you return to your theme of social responsibility. This made the piece very personal while at the same time addressing wider issues – it worked well.	20	13
4. Practical Application Skills		
The writing is of a good standard with very few mistakes in the text ('enrol' is used instead of entail in one sentence). The short essay was well structured and the decision to focus on the issue of social responsibility as well as personal motivations made the essay flow well.	25	16

5. Transferable Skills for Life and Professional Practice		
The question 'why study architecture today' is addressed head on – both by reference to a general social issue and on a personal level. The essay was well organised – with an opening and closing statement concerning the social role of architecture.	20	13

Assessment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		65%
	Up to 1 week late (40% Max)		
	Over 1 week late (0%)
