Introduction ; What I have doing this team , we been doing digital skill module in this module we learn how to make Gmail account , we made a website , how to make questioner , bloggings . Making gmail account was quit simple but not easy still I have manage to it with my teacher help . Deigning website was very heard and difficult for me because I am very good working with computer ,we choose picture for our website. My other module which is called the Managing Enterprise in the 21th century is that we are doing this as a group presentation , in this group we are four of us and we are doing business plan , in our business plan we are renting a wedding hall we kept our hall name Paradise Hall it a big hall it has three rooms with different sizes . The rooms can be book buy separately each room has different price our price is referable everyone can afford it.

Main body ; In order to help our business grow more we have open our own website , our teacher help us to do website online which we did on webbly website this was something completely different what I have never done before. In our business I am handling the Marketing possession my job compere our price to other halls what improvement other business doing . Our target is south Asian people in Swansea because there are no Asian hall in Swansea for as this is a big point to make our business grow bigger , and for people who lives in Swansea they have a Asian hall in here .When a Asian wedding happen they have to order food , decoration , everything what they need for Asian wedding they had order from city like Cardiff , Bharmingham , London

Conclusion ; In our website we all as agroup have separated our own parts some part doing and other parts doing others and one of us managing the website . We all choose name of our Paradise Hall and we are four of us always stay contract with each other's for and any have problem doing something we help each other.

what was your role?

Slightly under word count. You could have gone into more detail. For example, what features on your website help to increase sales?
