Introduction

You need to say something about how ethics is an important part of contemporary professional practice. Use examples you find to illustrate this point.

- What are ethics and **Behavioural Ethics** – (Ethics of Care, Global ethics, Bioethics, Virtue Ethics) – **You do not have to cover all of these, but only those that are relevant to your professional practice. It may be a combination of few.**
- Why are they important from a personal and professional perspective
- What does your framework set out to achieve

Values

- **Statement About Values** (relating to the area you have chosen)
- Why are values important
- What values is your ethical framework base on and **WHY – you need to make the argument.**

Principles

- What Principles would you chose for your ethical framework and **WHY – you need to make the argument.**
- Are there any other moral ideas that you would draw from and **WHY – you need to make the argument.**

Personal Moral Qualities

- What Personal Moral Qualities would you chose for your ethical framework and **WHY – you need to make the argument.**

What happens when an ethical dilemma occurs?

- Perhaps introduce a model
- Evaluate why a model might be useful for the discussion.
(using and example within your chosen profession)

- What else would you like to consider.

Concluding Remarks
