

Digital Resources

TO SUPPORT THE NEW CURRICULUM IN WALES

The HWB platform hosts a national collection of digital tools and resources to support education in Wales. It offers equal access to free, classroom focussed tools and resources for all teachers and learners in Wales.

HWB

- HWB enables its users to access online resources anywhere, at anytime and from a range of devices.
- Supports national approach to planning and delivery.
 - Enables the sharing of skills, methods and resources between education practitioners in Wales.
 - Supports teaching and learning in Welsh and English.

Office 365

Office 365 modernises the Microsoft Office suite as it is a cloud based service available through the HWB platform.

All HWB users are provided with access to Microsoft Office 365 (which includes Outlook e-mail, non-Learner conferencing facilities, OneNote and core online office apps including Word, Excel and PowerPoint).

J2Launch

J2Launch is a content management system for schools that allows you to manage and distribute any digital resource including web applications and content and resources created in the just2easy tool suite.

Apps available within the tool suite include;

- J2Office
- J2Blast
- J2Code
- J2Write
- J2Data
- J2Vote
