Calculators in the phone help to figure the calculation in a second. Besides using it, the futures inside the calculator app can be use as the exchange currency for example in a second can check the pound currency to riyal Saudi.

My Short Reflection

In my opinion, digital life make our life more easy than a decade ago. Furthermore, digital life help to get any information that we want in a second. We also can reach to the global community by only have the internet and the smart phone. Sometimes, I feel nervous about the privacy of our personal data will be impose easily. I hope this module will help me especially in daily life routine also give me more knowledge that can be use in business work.
