Marxism

“The philosophers
have only
interpreted the
world in various
ways. The point is to
change it.”

Feature of Ancient Mode of Production

“It is slavery that has given the colonies their value; it is the colonies that have created world trade, and it is world trade that is the pre-condition of large-scale industry. Thus slavery is an economic category of the greatest importance.” (Karl Marx 1909)

Slaves uprising

(Image 9)

‘The uprising lasted 10 days and spread throughout the entire island, mobilizing as many as 60,000 of Jamaica's 300,000 enslaved population. Sam Sharpe was captured and executed in [Market Square, Montego Bay](#) on 23 May, 1832.’

(The Abolition Project)

Samuel Sharpe

(Image 10)

‘Just before his death, he had said to a visitor: "*I would rather die upon yonder gallows than live in slavery*". Sharpe's owners were paid £16 in ‘compensation for their loss of property’. (The Abolition Project)

The Present

- Proletariat
- Means of production
- Bourgeoisie

Production Based on Slavery

“The slave market maintains its supply of labour-power by war, piracy, etc., and this rape is not promoted by a process of circulation, but by the natural appropriation of the labour-power of others by physical force.” (Karl Marx 1909)
