

MODULE REVIEW MODULE TUTOR - REPORT FORM

The review of a module is carried out initially by the Module Tutor. When the module review is completed, its findings are considered by the Academic Director or Programme Manager and noted at the Academic Discipline's Annual Programme Review. Module feedback and what changes will be made as a result of the feedback given are also discussed at Staff Student Consultative meetings. This form is not compulsory but is provided to support the module review process.

Academic Session: 2022-23
Module Title: SFDM MAJOR PROJECT#1
Module Code: M6X01898

NOTE ~ Module is something of a legacy L6 module from the last quinquennial, before the adoption of the INDEPENDENT PROJECT in the School of Applied Computing.

Student Feedback

Delivered in the first part of the first semester, front-ended across October and early November, it acts as a pre-cursor to work conducted on INDY_P, providing an opportunity for students to concentrate upon pre-production elements and to be assessed as the first checkpoint in the year.

All of the students enrolled on the final year of the BA (Hons) Computer Animation degree successfully delivered and passed the module. Coursework indicated a strong grasp of what was required, and students welcomed the opportunity to concentrate upon preliminary designs and project scoping, ahead of the first assessment on INDY_P (January).

All feedback on the module throughout the period, formally and informally, was all positive and students engaged well with what was expected and in terms of a open dialogue with the module tutor. The spread of marks had 33% in each of the higher bands (1st, 2:1 and 2:2) with no 3:0s or fails.

Module Tutor's response to feedback given by students

The tutor only welcomes the response and level of commitment from the cohort. As noted, this module is from an earlier version of the degree (and delivered across the whole of the previous School, hence the *SFDM* prefix (School of Film & Digital Media). As a module being phased out, it could have been (potentially) an awkward unit to host – or at least brought some confusion. Yet, it all went through smoothly and students adapted well to the module pattern / structure.

Tutor Self-Reflection

2022-23 is the penultimate year for the module; 23-24 being the last. As with previous years the tutor accommodated the delivery, with the front-ending and assessment within the first 6 weeks or so, and this only helped to form a bridge across to INDY_P and planning towards those checkpoint / assessment landmarks. There is no need for any changes for the coming year, and having the same tutor for both MAJ PROJ and then INDY_P creates a good link and level of consistency, expectation and final year co-ordination.

Module Tutor: Phil Organ **Date:** May 2023
Programme Manager: Nabeel Masih
