Adequate Literatures referred to the work. Good references. In-text cited. More critical reviews could have added value. When referencing, instead of starting "Blum mentions....", it must be Blum, in his literature Rational Cybersecurity for Business [2] mentions...." Could have referred to more academic credible literatures.	13.2

Knowledge and Understanding Skills	15

Overall, a very well written report. Good understanding on Threats, Vulnerabilities and Attacks. However, could have added more in-depth description on their types and how they impact business Could have done more in-depth description on .rekt file format attacks. Guidelines written good. Covering aspects of security focusing on Customers, staff etc.	13.8

Cognitive and Intellectual Skills	20
Feedback	Mark
Very good discussion on the possible security breaches. Key observations on securing the network made. Could have focused on discussing the operations/ functions and recovery aspects of .rekt format with more evidences and summarised literatures. Organisation of ideas are excellent.	16.8

Practical Application Skills	40
Feedback	Mark
Packet Tracer Certificate attached. Physical Topology and Logical Topology drawns with adequate information. Minor things need to be focused (like customers laptop are DHCP in the scenario/ pkt file and topology gives IP Address) Implementation done adequately IP Addresses configured. Basic configurations could have been done in the network. Wireless network configured.	38

Transferable Skills for Life and Professional Practice	10
Feedback	Mark
Flow of the report is excellent. The Abstract must be focusing on the report and not the scenario.	9.8
Overall Mark	92
