

MAJOR PROJECT - Final Report – 55%

Student Name:	Jordan Luxton
Title of Project:	Prevention Detection & Hacking
Supervisor:	Carlene
2 nd marker:	Raplan
Course:	BIT BusComp CIS <u>CNets</u> CSE Electrical Games Mobile TRE SE Web (please circle)
Project Type:	Survey Review <u>Experiment</u> Development (please circle)

	Mark %
First Marker's General Comments and Original Mark An exceptionally good project. Well written, however a very disappointed conclusion, recommendation and reflection.	70
Second Marker's General Comments and Original Mark	
Comment After Consultation With Other Marker & Final Agreed Mark	70%

Signature: Chomplea Date: 13/5/2017

	Survey	Review	Experiment	Development
1. Research-informed Literature				
Introduction	/5	/5	4/5	/5
Literature Review	/20	/35	17/20	/15
Comments: This chapter is covered well but a key objective to conduct research needed to be included. The lit review was highly analysed and critique. However a number of areas lack reference citations. The areas refer to appendix for more information need to be given key brief detail of what the area is about before referring same to the appendix.				
	Survey	Review	Experiment	Development
2. Knowledge and Understanding of Subject				
Methodology	/5	/5	4/5	/5
Survey Design	/15	-	-	-
Requirements/Design	-	-	-	/5
Comments: This section excellently discussed. However, there was no need to discuss the methods not relating to the project.				

	Survey	Review	Experiment	Development
3. Analysis				
Results & Discussions	/25	/25	15/25	/25
Conclusions and Recommendations	/10	/10	4/10	/10

Comments:

- Discuss more your solution work around to get your test work (what you have done to get these work, once encountered problems).
You discuss and blowout more the problems & failure aspects rather than the good/workable side of the project.
- Excellent test project analysis & discussions. However the evaluation need to be done in more depth rather than a summary.
- The conclusion need to be more detailed highlighting the key findings and workable testings.

	Survey	Review	Experiment	Development
4. Practical Application and Deployment				
Development	-	-	-	/15
Experimental Design	-	-	14/15	-

Comments:

Step by step implementation outline but some ~~implementation~~ important areas/configuration could be annotated/highlighted.

The requirements for the design excellently highlighted and discussed.

	Survey	Review	Experiment	Development
5. Skills for Professional Practice				
Reflection	/10	/10	3/10	/10
Quality of Report	/10	/10	8/10	/10
Comments: Reflection is too brief. What have you learnt? How could you improve it? What advice would you give to someone else who intend to do similar work? The Quality of the report as it relates to writing skills and formatting is exceptionally good. However, the layout for new page of each chapter should be done and not flow on same page of ending chapter.
