

The impact of virtual learning environment

STUDENT:ROTARU GABRIEL ALEXANDRU

STUDENT ID:2113989

UNIVERSITY OF WALES TRINITY SAINT DAVID

MODULE CODE:BMSW4003

LECTURER:AMITAVE BANIK

DATE:10/01/2022

Introduction:

My name is Rotaru Gabriel Alexandru , i am 20 years old and I study last 4 months Digital Skills And Research Methods . Before study DSR my knowledge level about tehnology and research was very low , so it was hard for me to work on a computer or to find new information using tehnology.

After i finish DSR module I unlocked skills like : Research Methods saw now I cand find easy information online and to make diference from a true information and one fake and Microsoft Office , now is easy for me to write a report or to make a presentation on the computer , more economical and better for nature because I avoid paper waste .

In this report my aim are to research students opinia about Moodle app by University Of Wales Trinity Saint David.

Rationale:

I start this study to see how students see Moodle app , if is easy to use , if the app run good and if they found help on Moodle platform .

Objectives:

Befor I start a project , I expect to achieve new knowledge about topic.To achieve my objective when I do a project i need to use my research skills what allow me to collect data from secure sources like Moodle and Wikipiedia.

Literature review:

Research skills help me a lot , at campus , home and at my job .

First , after i learn research methods , I was able to work with my team in campus for projects and exercises , using research methods and tehnology we find all data which we needed to pass all challenge.

Second , at home and at my job I was put in the situation when somebody ask me something , but i don't found the answer , saw i use my research skills to help people around me.

Methodology:

Moodle App ofer to student all data from the campus class home , at one click , free and without limit of use . All UWTSD students cand use this app 24 hours from 24 hours . „ Save on dvice" permit students to read everywhere , and to be more fast accesible for them .

Conclusion:

In conclusion , to achieve a project we need to understand the topic after to make a plan with our objective . After all we need is to use research skills to search for data to complete our objective . We can use research online using technology or library reading domain books.
