Learning even a few words of Welsh can make a meaningful difference in the health sector.

Using simple Welsh phrases can help patients feel more at ease, respected, and understood—particularly in moments of stress or vulnerability—thereby improving trust and communication.

In Wales, where language is closely linked to identity and wellbeing, this cultural and linguistic awareness supports more person-centred care and aligns with the principles of dignity and equality promoted across services such as NHS Wales.

11pm

Welsh has two words for 'you' – '**ti**' and '**chi**'

- '**ti**' is used with one person you know well
- '**chi**' is used in plural situations (more than one person)
- '**chi**' is used with one person you don't know well or when showing respect

ti

chi
