TEITL Y PROSIECT: / PROJECT TITLE:

Barriers to female participation in sport and physical activity aged 16-19

Dear Participant:

My name is Jonathan Escott and I am studying in University of Wales Trinity Saint David.

- I would like to invite you to participate in my research project. This project will critically evaluate the barriers that effect participation in sport and physical activity for females aged 16-19.

*Attached to this letter is a short questionnaire developed by myself which will assess the barriers to participation female's face in sport and physical activity. I believe your opinions will be extremely helpful to me.

Through your participation in the questionnaire and/or interviews, I hope to critically evaluate the barriers that effect participation in sport and physical activity for females aged 16-19.

All questionnaires will be kept strictly confidential to the researchers involved and at **NO** time will individual questionnaires be released to the general public. This gives you a chance to express your views on your programme a confidential and anonymous forum and still be able to make a difference. Your participation in this study is completely voluntary so you can withdraw from the questionnaire at any stage.

Our questionnaire should take about 10 minutes to complete, but there is no time constraint. There are also no right or wrong answers. Attached to this letter along with the questionnaire is a consent form for an interview. As this is a new project, your feedback is also important to us and we would be much obliged if you could also complete the feedback sheet along with the questionnaire. We understand that your time is at a premium but your opinions are very valuable to us.

After careful and precise analysis of the data obtained from this questionnaire, I will be happy to provide you with a copy of the findings at your request. The results of this questionnaire will hopefully enhance my understanding of the barriers that effect participation in sport and physical activity for females aged 16-19 and will be stored on my own personal device and UWTSD desktop. The results of the research will be fed back to myself, lecturers and the sport department at UWTSD.

We thank you in advance for your time and participation. If any questions do arise, feel free to contact me at your convenience.
