

Advance HE – SF Reference for: Nabeel Masih

It is a pleasure to provide a reference in support of my colleague's application for Senior Fellowship of Advance HE. I have had the privilege of working with Nabeel at UWTSd for a number of years now, during which time I have observed his exceptional, professional and supportive character and innovative education contributions.

Nabeel has clearly demonstrated excellence in his teaching, student support and course leadership role. He has been instrumental in enhancing the learning experience for students on the BA Animation and Visual effects course, through engaging and innovative teaching and feedback methods.

Nabeel's leadership is demonstrated in new module development and the implementation of new learning & teaching strategies in existing modules. Nabeel has also successfully led several initiatives aimed at improving student engagement, recruitment and learning outcomes such as Video tutorials, Marketing videos and Video feedback. The later, a first and pioneering practice within our Academic Discipline.

Nabeel has also contributed to the Academic Community, by conducting staff workshops and training workshops to support staff in learning new technologies and tools.

Nabeel actively contributes to the academic community via participation in professional meetings and networks.

Nabeel teaching and learning approach is certainly and respectfully student-centered. He is highly respected by our students for his approachable personality, professionalism and dedication to the students.

In conclusion, I support Nabeel's application for Senior Fellowship, based on his dedication to teaching excellence, leadership, and commitment to the academic community. His contributions have had a positive impact in our Academic area.

If you require any further information, please do not hesitate to contact me.

Sincerely,

James Williams SFHEA
