

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
2. Knowledge and Understanding Skills		
From what has been submitted, you have missed the whole point of the assessment. Yes you have to create a website, but this is all about demonstrating your skills in js/jquery - there is little js and no jquery of note	15	2
3. Cognitive and Intellectual Skills		
A brief, but non informative discussion on the js code that you have provided	15	2
4. Practical Application Skills		
Although you have a website (3 pages), the single validation check of the persons name does not work as there are errors in the js. Considering the time that was allocated to this assessment, do you need help in managing coursework. At level 5, this is somewhat unacceptable	70	4
5. Transferable Skills for Life and Professional Practice
