

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
2. Knowledge and Understanding Skills		
For what has been developed, supplied code has been documented (validation, change to animated gif and a hit counter - that does not work) - albeit with minimal comments	15	4
3. Cognitive and Intellectual Skills		
For what has been submitted, discussion is limited when linked to the image changer and hit counter, validation is data is mentioned (but limited in its discussion)	15	3
4. Practical Application Skills		
Site is basic and does not reflect the students skills at Level 5. Hit count is not working at all and the change of image to animated image does work on the click of the image. Data validation is present and appears to work - however, there is not enough diversity on the form to show skills in data validation	70	8
5. Transferable Skills for Life and Professional Practice		

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		15
	Late Submission ?		
	1st/2nd/3rd attempt?	1st
