OUTLINE

- ▶ What does a nurse do?
- ▶ Requirements of a nurse
- ▶ My strengths
- ▶ My weaknesses

NURSING IS.....

The use of clinical judgement in the provision of care to enable people to improve, maintain, or recover health , to cope with health problems, and to achieve the best possible quality of life, whatever their disease or disability ,until death.

The duties and responsibilities of a nurse:

THE RESPONSIBILITIES OF NURSES

- ▶ Administering direct, sometimes emergency, care to patients who are sick or injured
- ▶ Supervising other medical professionals who work with them
- ▶ Offering emotional support and resources to patients and their families
- ▶ Providing midwifery and pregnancy care and obstetrics and gynaecological services (specialized nurses)
