Slide 3 INTRODUCTION

Slide 4 MAIN BODY

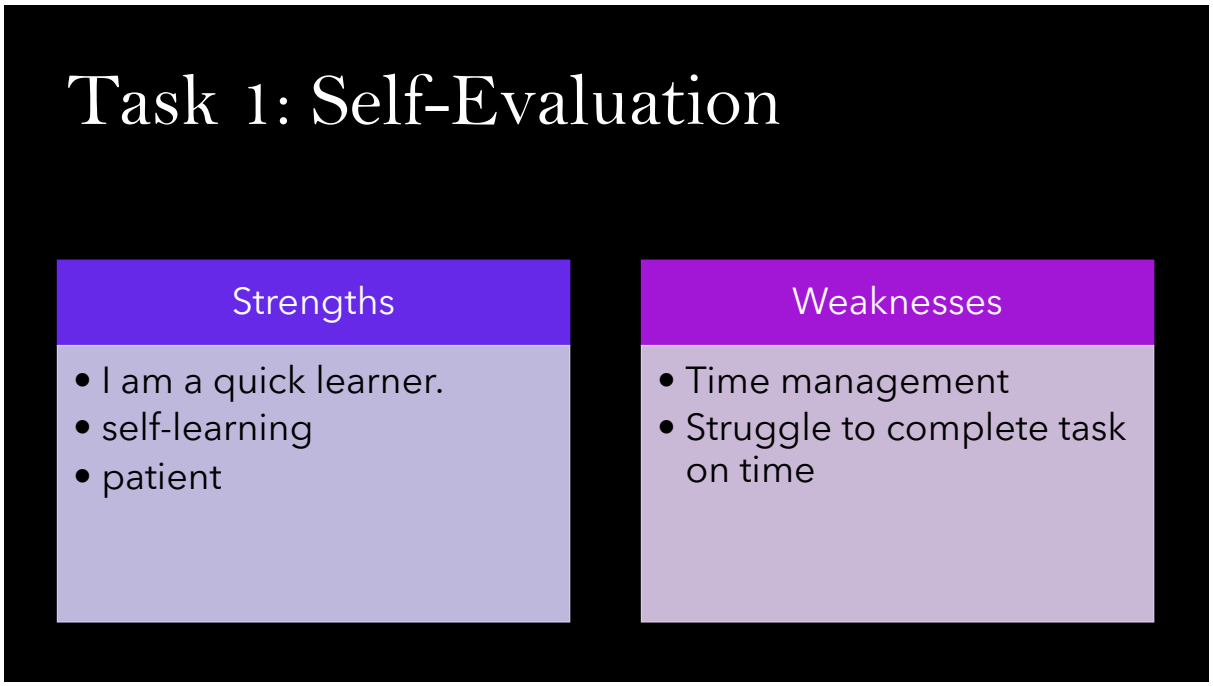

Slide 5 GIBB's REFLECTIVE MODEL

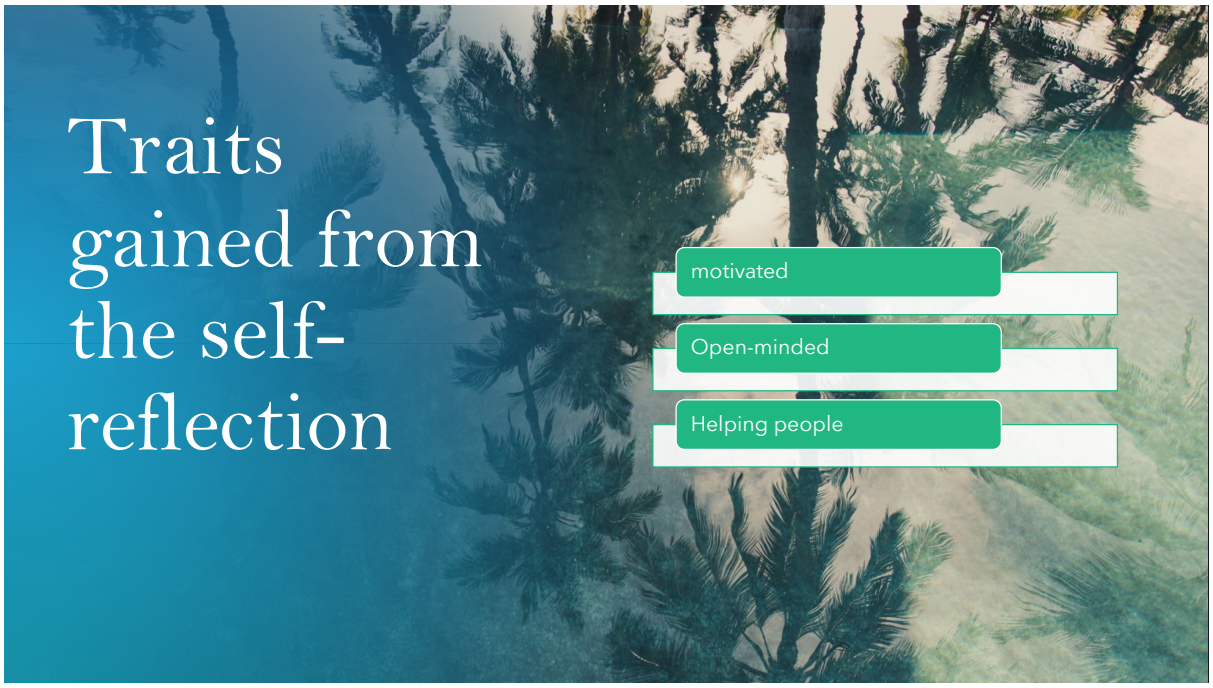

Gibbs reflective cycle is a systematic framework that assist individual in reflecting on their experience in a structural manner (1).It consist of six stages; Description, Feelings, Evaluation, Analysis, conclusion, and Action plan. This model is beneficial for fostering critical thinking and continuous improvement, particularly in educational and professional settings. Gibbs model encourages individual to examine both their emotional and logical reactions to experiences, enhancing their self-awareness. (2) Utilizing reflective frameworks like Gibbs can enhance decision – making and professional judgement, particularly in critical fields such as health care and cybersecurity. (3). In my assignment 2, I will utilize Gibbs model to reflect on a collaborative cybersecurity task, assessing my contributions, communication methods, and technical competencies. This methodical approach will enable me to pinpoint areas for enhancement and establish a coherent plan of action for future endeavours.

Slide 6 TASK 1: SELF EVALUATION

Brief explanation: Discuss your strengths and weaknesses based on your individual **SWOT** analysis. **One Strength and one weakness are provided as example. Please feel free to remove them if that does not apply to you**

Slide 7 TRAITS GAINED FROM THE SELF EVALUATION

Brief explanation:

T1. Self – awareness involves introspection to comprehend personal strength and weakness, loading to better management of emotions and behaviours for informed decision making.

T2. Adaptability is demonstrated through the capacity to switch adjust in demanding circumstance, emphasizing the significance of flexibility in teamwork and cybersecurity challenges.

T3. Accountability entails assuming greater responsibility for actions and results, utilizing reflection to pinpoint areas for enhancement and establish proactive strategies for ownership of achievement and setback.

Slide 8 PROFESSIONAL DEVELOPMENT PLAN

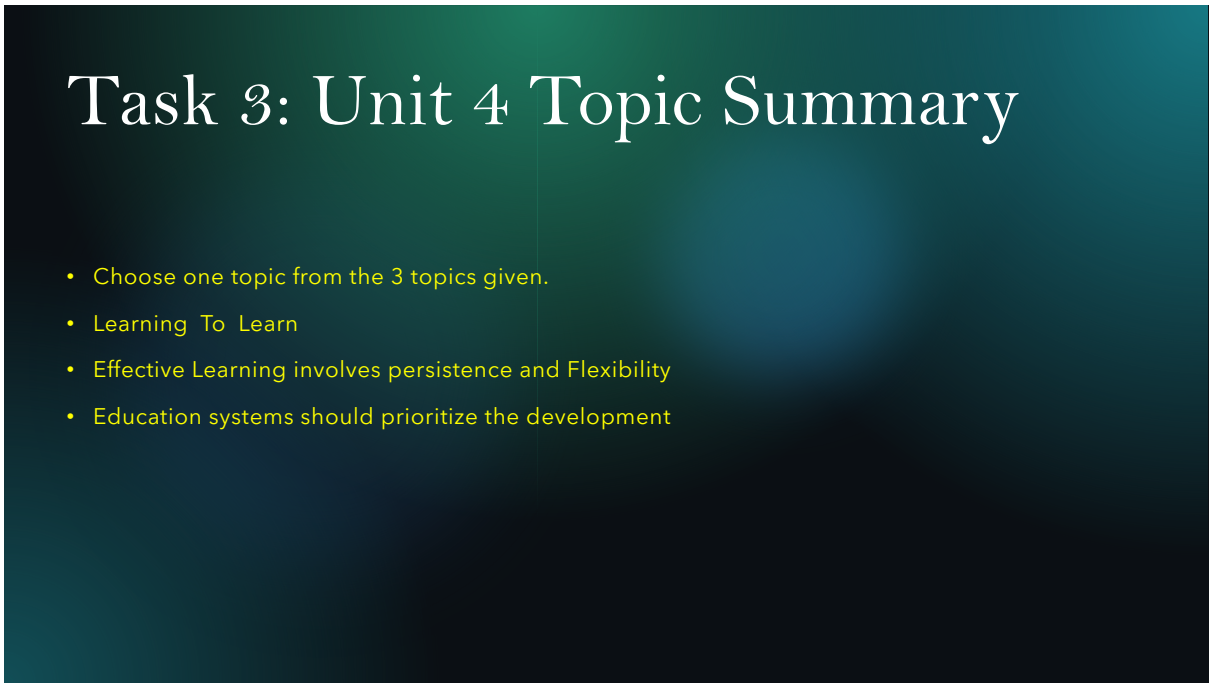

Task 2: Professional Development Plan with SMART Goals

Goal to Achieve	Personal Action Plan	Resources and Support required	Development Opportunity with Professional Qualification	Performance Measurement	Expected Completion Date
Cybersecurity Analyst	Enrol in security course. Study 5 hours a week	Online training platform, mentors, Study guides	Camp TIA security +certification Exams.	Course completion. Passing the certification exams	December, 2025
Please free to add more rows and/or columns as you need					

Brief explanation

This strategy centres on obtaining accreditation as a cybersecurity analyst by completing the CompTIA security +certification. It encompasses a structured learning timetable, necessary resources like educational tool and quid lines from an experienced individual, an official certification, and methods to evaluate advancement through tests and certification.

Slide 9 UNIT 4 TOPIC SUMMARY

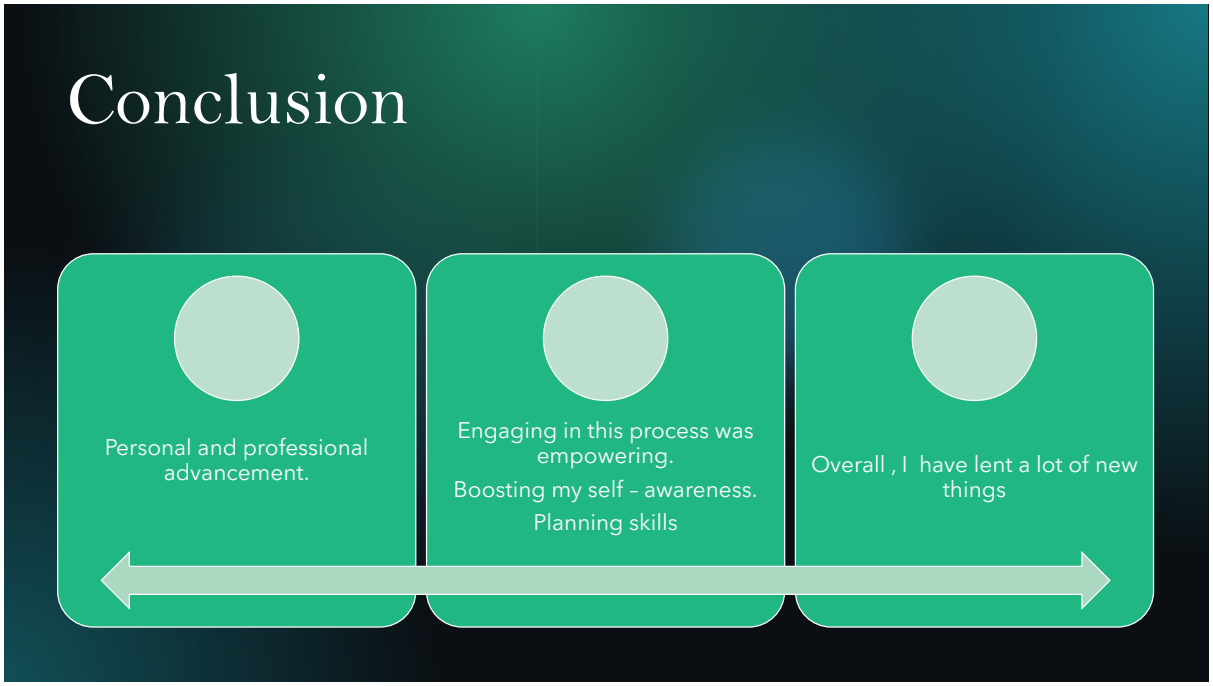

Brief explanation: Choose one topic from the 3 topics given in Unit 4 and present a short summary of that topic.

LEARNING TO LEARN.

Acquiring the skill of understanding, managing, and enhance ones learning process is crucial in a rapidly changing world. (1). Effective learning involves cognitive, emotional, and social aspects. (2). While habits of mind like persistence and flexibility are essential for lifelong learning success. (3). Building learning power through resilience and uncertain environments. (4). Vygotsky theory underscores the importance of social interaction in developing higher- order thinking skills. (5) Training in metacognitive structures has been shown to enhance academic performance and promote learner autonomy. (6) Education systems should prioritize the development of the ability to learn how learn for lifelong success.

Slide 10 CONCLUSION

Brief explanation:

This presentation discussed a methodical approach to personal and professional advancement through introspection and SMART goal setting. It highlighted the importance of traits like emotional self- awareness, proactiveness, and a growth mindset, drawing on insights from Goleman (1995), Covey (1989) and Dweck (2006) . The use of SMART goal in a professional development enhancement by linking personal efforts to achievable objectives.

This task taught me the significance of accessing my strengths and areas for improvement. Kolb (1984) experiential learning cycle illustrated how reflection on experiences can drive meaningful personal and professional growth. Schon (1983) theory of reflective practice emphasized the need for ongoing self-assessment to adapt to new challenges and sustain long – term development

Engaging in this process was empowering, boosting my self- awareness, planning skills and sense of responsibility. I recommend integrating reflective practices into routine activities and periodically reviewing development objectives to ensure they align with progressional goals.

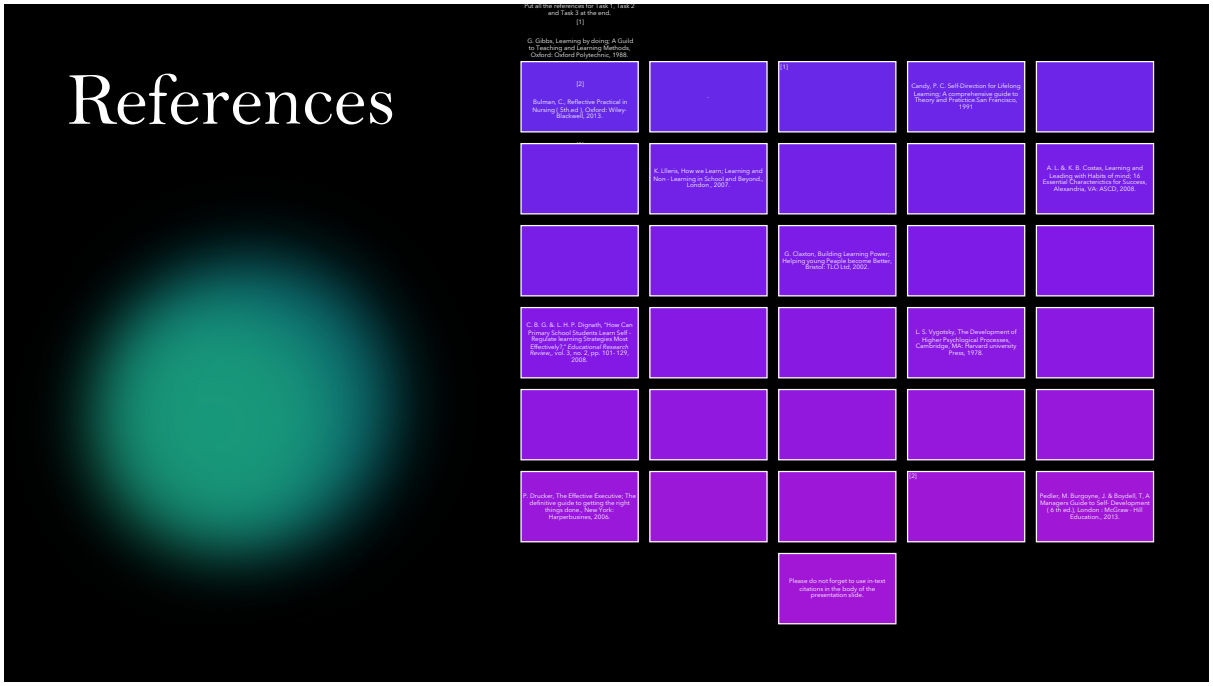

Conclusion

A general conclusion for this word document (Briefly in a few sentences)

This paper has examined the significance of self – assessment and objective establishment in personal and career advancement. Through recognizing essential qualities acquired from introspection and create a SMARH growth strategy, I have enhanced my comprehension of ongoing enhancement. The process has underscored

the value of self – understanding, strategizing, and perpetual education in attaining career progression.
