Benefits and drawbacks of T1 &T2 hypervisor, Cloud Computing discussed. However, more elaborate discussion/ description required. Could have added own Illustrations for DNS instead of referring to online sources. The quality of the report is good. Could have added more description on comparing the functionalites and operations of terminologies with different OS's Don't use double binded page for coursework. It was difficult to follow-up the document. Use normal report structure for your coursework 2. However, this doesn't impact your marks.	13.7
