MODULE TITLE : Digital skills

Guide to digital safety

Be safe Online

Use an anti-virus program.

To help your anti-virus program identify possible dangers on your computer, keep it updated.

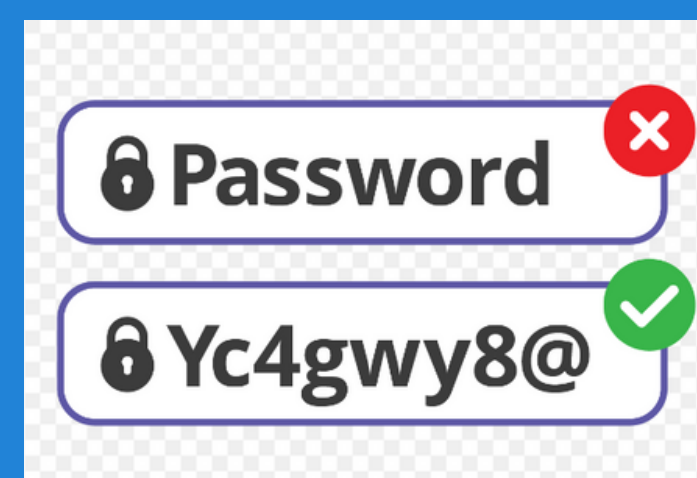

Be careful of what you download.

Avoid downloading anything from unreliable websites. Malware might be present in these.

Create strong passwords.

Use complex passwords and use a password manager to keep track of them.

Turn on privacy settings.

Enable privacy options to take charge of how businesses use your data.

Think before you post.

Don't share personal data online
