

Academic & Employability Skills

Jessica Brito

Student ID: 2008475

Module Code: BMSW4001

Lecturer: Barbara Chinyani

University of Wales St David Trinity

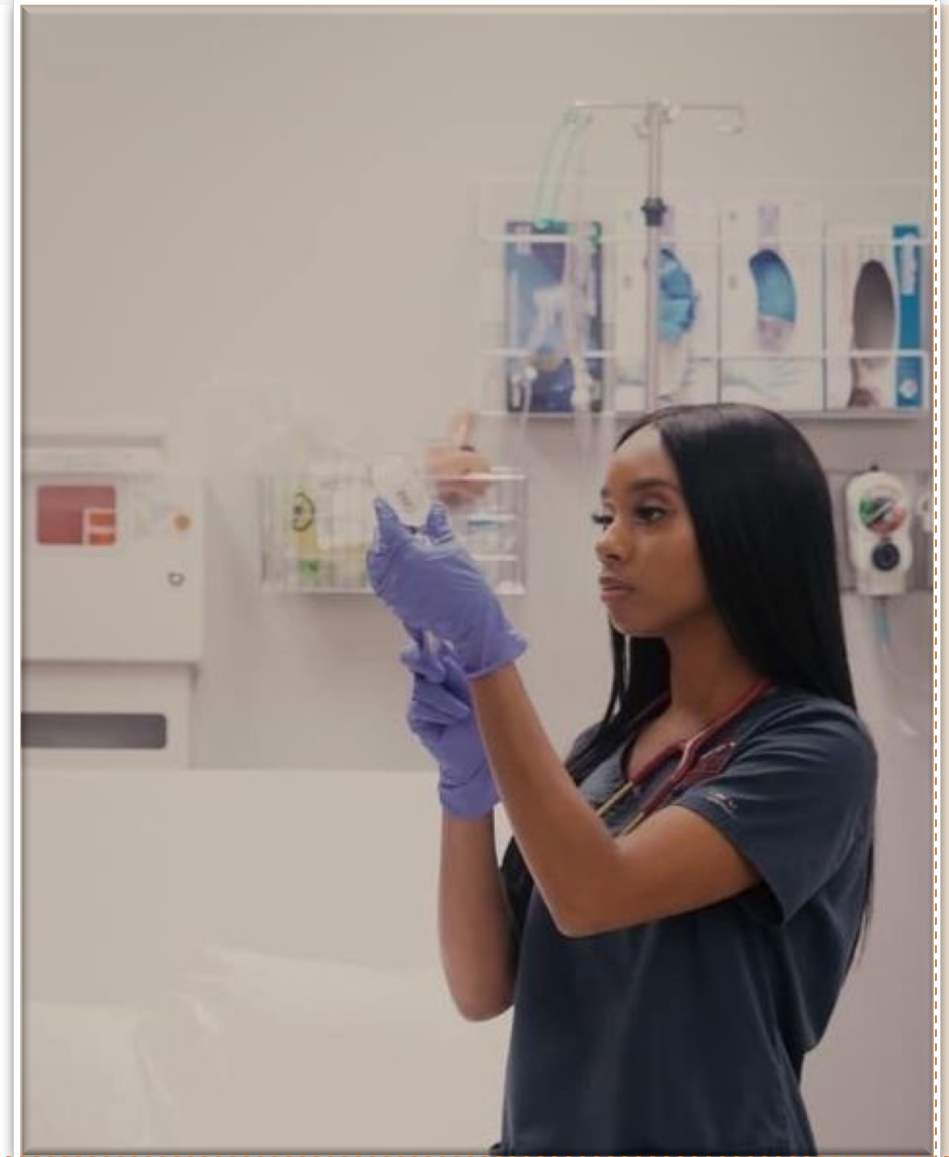

Introduction

- ♦ Introduction of analysis of academic and employability skills as well as SWOT & PDP analysis.
- ♦ My intended career within the health and social care sector is to become a General practice nurse, as I strongly believe I will achieve the desired entry requirement and potentially have the required skills.

General Practice Nurse

- My intended path career within the Health and Social care sector is **General practice nurse**.
- Being a **General practice nurse** is one of the most important roles within the healthcare sector (Health careers, NHS, 2020)
- A **General practice nurse** focuses on patient's physical, psychological and social characteristics care.

Responsibilities required to become a General practice Nurse

The main responsibilities of a General practice nurse are:

- Be highly organized within their routine

- Having excellent observation

- Being flexible

- Excellent communication skills

- It is essential to have problem solving and good judgmental skills

Skills Comparison

-Skills required (General Nurse)	-My skills
-Be highly organized within their routine	I'm very organized & always planning my day ahead within my daily routine
-Having excellent observation	- I consider myself very observant
-Being flexible	-Very consistent and flexible
-Excellent communication skills	- Currently working towards to have better communication skills
-Excellent problem solving and good judgmental skills	- Currently working towards to build a strong form of problem solving and good judgmental skills foundation.

Entry requirements to become a general practitioner nurse?

To become a qualified general practitioner nurse you have to contain the following requirements:

- Undertake further training and education.

- Must be a qualified & registered adult

- Have minimal knowledge & experience in areas such as health promotion, working with patients.

My current challenges are that I do not have some of the entry requirements requested as I'm working towards to achieve the same listed.

SWOT Analysis

Strengths	Weaknesses	Opportunities	Threats
-Willing to ambitious to learn new skills	-Find it hard	-Able to grow into Health sector environment	-Work procrastination
-Being flexible & Organized	-Very demanding with myself	-Gain new experience within the chosen career	- Creating too many high expectations
-Pretty good with adaptation	- Procrastinating when there is work overload	-Get good job offers in & outside of country	

PDP Analysis
