Title : Technician

Company Name : BMW GROUP

Address : Birmingham Sytner

City, Location : Birmingham

Dear Sir/Madam

As a skilled professional with comprehensive experience performing repair and maintenance services for a variety of vehicles, I am confident that I can make a substantial impact on your company's success in the Technician position you have available. I have enclosed my CV for your review.

As my career profile illustrates, I am well-prepared to meet and exceed your expectations. Having served as Automobile Technician, I am accustomed to the rigors of fast-paced, highly-regulated environments requiring sharp attention to detail, consummate accuracy, and outstanding communication skills. If given the opportunity, I will work tirelessly to deliver similar results for (BMW GROUP) while partnering with your staff to accelerate the achievement of your immediate and long-range goals.

Further, I would bring the following strengths to your team:

- Skilled in improving performance of automobiles by troubleshooting, restoring, and maintaining diverse mechanical and electrical systems
- Demonstrating value-added skills in replacing vehicle parts, installing accessories, and detailing interiors and exterior trims according to customer needs.
- Possessing a keen knowledge of diagnostic computer systems to ensure accurate vehicle repairs.

In me, (BMW GROUP) will gain a diligent, goal-oriented professional with the agility, dedication, and focus required to successfully fill the role of (Technician). As such, I would welcome the opportunity to meet in person and discuss this opening in detail.

Thank you for your consideration. I look forward to hearing from you!

Sincerely,

Ionut Rotaru

Job Description for a Technician

Thank you for downloading your Technician job description. Read below and learn how to change this into a job advert that delivers the best results possible.

First impressions are everything and your job advert is your first chance to pitch your company. If you get it right, you will maximise the number of suitable candidates that you can generate.

Once you have created your job advert, post it with Hiring People and we will distribute it on all of the leading job boards for you.

Job Description

We are looking for a technician to manage and instal electrical wiring for all building projects. In this position, you will work with builders and architects, and instal and maintain electrical wiring systems. You must be able to follow safety practises and regulations to meet high-quality standards. You will review and compare pricing, log materials needed and used, and track plan changes.

Technician Responsibilities

- Monitor and analyse electrical systems
- Collaborate with engineers to determine the best placement for wiring
- Update old electrical systems for improvements, safety, and quality control
- Repair broken wiring and equipment
- Analyse tests to track results and make improvements
- Work with building team and make recommendations
- Perform calibrations for placement of electronic components
- Test devices for improvement, safety, and quality control
- Responsible for all required electrical qualification tests on projects and ensure compliance with all outside parties involved
- Modify systems to be environmentally friendly
- Participate in test runs and meet safety regulations

Technician Requirements

- Creative problem solver
- Excellent verbal and written communication skills
- Able to multitask on various projects
- Able to recommend projects, product improvements, or cost reductions
- Understanding of electrical regulations
- Proficient computer skills
- Technical school degree and certification for technicians
- Experience as a technician or technician apprentice
- Excellent communication
- Knowledge of property and safety regulations
- Strong mathematical and technical skills
- Strict attention to detail

Advice

5 tips for writing an effective job advertisement:

- Make an amazing first impression
- Write search-friendly content
- It's all in the formatting – make it concise
- Consider what appeals to your audience
- What is unique about this opportunity

Item	Hints/Considerations
Job Title	What is the job title for this position? Consider the job title that targeted candidates will search for. You may wish to consider the level of person you are recruiting and the impact you want the job title to have. This alone can have a significant impact on engagement and applications.
Location	Where is the job located? Consider: • Will travel be required? • Is the position homebased?

To learn more about HiringPeople and to place your job advert across the UK's leading sites, please go to www.hiringpeople.co.uk

	• Will relocation be an option?
Employment type	What is the employment type? Permanent, Contract, Full Time, Part time?
Overview of company	This is your chance to present your company and create a great first impression. Consider your employer branding and start to build candidate desire. You need a cohesive and positive message about your company and put personality into it. Consider what is special about your company; provide detail about the history, share the vision and what makes you attractive to potential employees.
Purpose of position	Use this as an opportunity to pitch the position. By making this section compelling you will increase candidate engagement, receive more applicants and recruit better staff.
Industry	Providing industry information will make your job description more appealing.
Specialisation	Is any specialisation required for this position? Focusing the candidate on this information will increase engagement.
Level	What level are you recruiting at? Director / Senior Manager / Mid management etc.
Responsibilities	What are the main responsibilities of the position? This is a great chance to sell the position and provide clear details on what is required.
Experience/ skills required	What experience is required for this position? Be clear on essential and desirable skills. Some important areas for consideration are: • Years of experience • Type of experience (Technical / Sales / Marketing / Accounting

	experience) • Function / sector experience • Skill specific to position • Management experience • What personable skills are required (well organised, self-motivated, articulate, team player, leader, dedication, outward going, multi taking skills etc.) • Computer Skills • Languages
Salary	By offering information, if competitive, you will increase the quality and quantity of applicants.
Salary cont. (OTE + benefits)	Providing other earning potential will increase the number of applicants, e.g. OTE, Bonuses, Pension, Benefits.
Qualifications	What qualifications are essential and desirable for this position? State whether a degree, industry accreditation or specific training is required for the position.
Eligibility to work in the UK	Must the candidate be eligible to work in the UK? Will visa sponsorship be an option?
