

Marking feedback for BMPE5005 Part 2 Reflective Presentations based upon Video Analysis.

The feedback for this assessment can be found on the 'Student Feedback Form' that you submitted with your scripts on turnitin. You are also able to download a hard copy of this by clicking on the download button – which is found just above the ... 

Then – whilst in the 'Download' window – click on 'Current View' & your assignment will download and you will receive a hard copy of your feedback.

Additionally the 'Rubric' section within Turnitin has also been marked to reflect the overall grades within each category which then also provides you with further information. Again – if you choose to download this (as above) this will also appear at the end of the downloaded document/assessment feedback.

Half the cohort submissions were moderated by Dr Nalda Wainwright and these marks have been entered to the mid term board - being held today (Feb 12th, 2021)

Remember this is 50% of the overall mark for the whole module outcome. Therefore, to calculate the 100% for the module you need to add both 100% & divide by 2 – you will then get your overall mark/grade for this module e.g. if for part one you had 56% (essay) & then 68% for your second half (presentation) = 124 divide by 2 = 62%

Hope you find this useful.

Heddwen Davies (Module co-ordinator)
