- 1) My chosen role is Occupational therapist; I chose this role because its of upmost importance to me to promote and encourage independence in daily living activities.
- 2) I began my research by looking into the NHS websites and Health careers website. I used the keywords: WHAT IS THE JOB OF AN OCCUPATIONAL therapist, I searched what the role and the necessary skills to carry out this job.

	NHS jobs
Relevance	Yes
Accuracy	Yes

4) One of the challenges that I encountered was that I didn't narrow down my research enough and I was not clear on the keywords I used. I went into the wrong website which was WWW.Bing.COM. I then tried the World Health Organisation (WHO) website which also was not correct as it's not a Job search site and made my research more challenging. Another challenge was making sure the sources I used were reliable, so I mainly focused on websites like NHS.

5) The next step is to continue researching the role of an Occupational Therapist. I will then plan and organise the information into sections for example: required skills and qualifications. Furthermore, I will write and review my Task 3 report to ensure that the information is clear and accurate.
