ABOUT

CITY: Barcelona

AGE: 19

STUDIES: Psychology

BEHAVIOURS

Well-behaved teenager, who enjoys some family time and walking her dog. Although she is pretty shy, Lexi is a really loving and caring person who loves to hang out with her friends, but as she lives in the outskirts of Barcelona, she tends to stay home very often.

FRUSTRATIONS

- Rude and immature people
- Being told what to do
- Running out of phone battery and not being able to listen to music
- Having to wash the dishes
- People who chew really loudly
- Walking the dog without music (well, doing anything without music)

INTERESTS

BIG music fanatic. Would spend all day with her headphones on if her parents wouldn't complain about it. She spends about 2 hrs every day learning how to play the guitar.
Having a professional photographer living at home (her father), made her pick up the best tips and tricks of photography, being able to capture every moment in a beautiful and creative way.
